

MALWANACHAL UNIVERSITY, INDORE

Curriculum implemented by statutory body (INC) for BSC NURSING (BACHELOR OF SCIENCE IN NURSING)

Programme name: - BSC NURSING (BACHELOR OF SCIENCE IN NURSING)

Programme code: - MUP-09BPT

INTRODUCTION & PHILOSOPHY

Indian Nursing Council believes that:

Health is a state of well-being that enables a person to lead a psychologically, socially and economically productive life. Health is a right of all the people. Individuals, Families and communities have responsibility towards maintaining their health.

Nursing contributes to the health services in vital and significant way in the health care delivery system. It recognizes national health goals and is committed to participate in the implementation of National Health policies and programmes. It aims at identifying health needs of the people, planning and providing quality care in collaboration with other health professionals and community groups.

Scope of nursing practice encompasses provision of promotive, preventive, curative and rehabilitative aspects of care to people across their life span in wide variety of health care settings. Practice of nursing is based upon application of basic concepts and principles derived from the physical, biological, and behavioral sciences, medicine and nursing.

Nursing is based on values of caring and aims to help individuals to attain independence in self care. It necessitates development of compassion and understanding of human behaviour among its practitioners to provide care with respect, dignity and protect the rights of individuals & groups.

Undergraduate nursing programme is broad based education within an academic framework specifically directed to the development of critical thinking skills, competencies & standards required for practice of professional nursing and midwifery as envisaged in National Health Policy 2002.

The teachers have the responsibility to be role models and create learning environment that enables students to acquire inquiry driven, self directed learning and foster an attitude of life long learning.

Under graduate nursing education program prepares its graduates to become exemplary citizen by adhering to code of ethics and professional conduct at all times in fulfilling personal, social and professional obligations so as to respond to national aspirations.

AIMS

The aim of the undergraduate nursing program is to:

- Prepare graduates to assume responsibilities as professional, competent nurses and midwives in providing promotive, preventive, curative, and rehabilitative services.
- Prepare nurses who can make independent decisions in nursing situations, protect the rights and facilitate individuals and groups in pursuit of health, function in the hospital, community nursing services, and conduct research studies in the areas of nursing practice. They are also expected to assume the role of teacher, supervisor and manager in a clinical / public health setting.

OBJECTIVES

On completion of the four year B.Sc. Nursing program the graduate will be able to:

1. Apply knowledge from physical, biological, and behavioural sciences, medicine including alternative systems and providing nursing care to individuals, families and communities.
2. Demonstrate understanding of life style and other factors, which affect health of individuals and groups.
3. Provide nursing care based on steps of nursing process in collaboration with the individuals and groups.
4. Demonstrate critical thinking skill in making decisions in all situations in all situations in order to provide quality care.
5. Utilize the latest trends and technology in providing health care.
6. Provide promotive, preventive, and restorative health services in line with the national health policies and programmes.
7. Practice within the framework of code of ethics and professional conduct, and acceptable standards of practice within the legal boundaries.
8. Communicate effectively with individuals and groups, and members of the health team in order to promote effective interpersonal relationships and teamwork.
9. Demonstrate skills in teaching to individuals and groups in clinical/community health settings.
10. Participate effectively as members of the health team in health care delivery system.
11. Demonstrate leadership and managerial skills in clinical/community health settings.
12. Conduct need based research studies in various settings and utilize the research findings to improve the quality of care.
13. Demonstrate awareness, interest and contribute towards advancement of self and of the profession.

Duration

Course Duration	=	4 years
Weeks available per year	=	52 weeks
Vacation	=	8 weeks
Gazetted Holiday	=	3 weeks
Examination (including preparatory)	=	4 weeks
Available weeks	=	4 weeks
Hours per week	=	40 hours
Practical	=	30 hours per week
Theory	=	10 hours per week
Hours available per academic year (1 st to 3 rd year)	=	1480(37wks×40 hrs) ×3=4440hrs
Hours available for 4 th year	=	540 hrs (14 weeks×40 hours)
Hours available for internship	=	1150 hours (48 hours per week)
Total hours for 4 years	=	6130 hours (as per INC)
Revised total hours	=	6137 hours

Course of Instruction**FIRST YEAR**

Subjects	Theory (class and lab)	Practical (clinical)	
1. *English	60 hours		
2. Anatomy	60 hours		
3. Physiology	60 hours		
4. Nutrition	60 hours		
5. Biochemistry	30 hours		
6. Nursing Foundations	265 + 200 hours	450 hours	
7. Psychology	60 hours		
8. Microbiology	60 hours		
9. Introduction to Computers	45 hours		
10 **Hindi/ Regional language	30 hours		
11 Library work / Self Study			50 hours
12 Co-curricular activities			50 hours
Total Hours	930 hours	450 hours	100 hours
Total hours = 1480 hours			

**Optional

SECOND YEAR

Subjects	Theory (class and lab)	Practical (Clinical)	
1. Sociology	60 hours		
2. Pharmacology	45 hours		
3. Pathology &	30 hours		
4. Genetics	15 hours		
5. Medical Surgical Nursing (Adult including geriatrics) I	211 hours	720 hours	
6. Community Health Nursing I	93 hours	135 hours	
7. Communication and Educational Technology	60 + 30 hours		
8. Library work / Self Study			50 hours
9. Co-curricular activities			35 hours
Total Hours	544 hours	855 hours	85 hours
Total hours = 1484 hours			

THIRD YEAR

Subjects	Theory (class and lab)	Practical (Clinical)	
1. Medical-Surgical Nursing (Adult including geriatrics)-II	120hours	270 hours	
2. Child Health Nursing	91 hours	270 hours	
3. Mental Health Nursing	91 hours	270 hours	
4. Midwifery and Obstetrical Nursing	46 hours	180 hours	
5. Nursing research	45 hours		
6. Library work / Self Study			50 hours
7. Co-curricular activities			50 hours
Total Hours	393 hours	990 hours	100 hours
Total hours = 1483hours			

FOURTH YEAR

Subjects	Theory (In hrs) (class and lab)	Practical (In hrs) (Clinical)	(In hrs)
1. Midwifery and Obstetrical Nursing	45 hours	180 hours	
2. Community Health Nursing – II	90 hours	135 hours	
3. Management of Nursing Services and Education	90 hours		
Total Hours	225 hours	315 hours	
Total Hours = 540 hours			

- *Project work to be carried out during internship.*

Internship (Integrated Practice-48 hours per week)

Subject	Theory	Practical (In hrs)	In Weeks
1. Midwifery and Obstetrical nursing		240	5
2. Community Health Nursing-II with integration of certificate course in community health		195	4
3. Medical Surgical Nursing (Adult and geriatric)		430	9
4. Child Health		145	3
5. Mental Health		95	2
6. Research Project		45	1
Total hours		1150	24
Total : 1690 hours			

Note:

1. Internship means 8 hours of integrated clinical duties in which 2 weeks of evening and night shift duties are included.
2. Internship should be carried out as 8 hours per day @ 48 hours per week.
3. Students during internship will be supervised by nursing teachers.
4. Fourth year final examination to be held only after completing internship

Scheme of Examination

FIRST YEAR

Subject	Assessment			
	Hours	Internal	External	Total
Theory				
1. Anatomy & Physiology	3	25	75	100
2. Nutrition and Biochemistry	3	25	75	100
3. Nursing Foundation	3	25	75	100
4. Psychology	3	25	75	100
5. Microbiology	3	25	75	100
6. English*	2		50	50
7. Introduction to Computer*	2		50	50
Practical and Viva Voce				
1. Nursing Foundations		100	100	200

* College Exam

SECOND YEAR

Subject	Assessment			
	Hours	Internal	External	Total
Theory				
8. Sociology	3	25	75	100
9. Medical Surgical Nursing- I	3	25	75	100
10. Pharmacology, Pathology, Genetics	3	25	75	100
11. Community Health Nursing – I	3	25	75	100
12. Communication and Educational Technology	3	25	75	100
Practical and Viva Voce				
2. Medical – Surgical Nursing - I		100	100	200

THIRD YEAR

Subject	Assessment			
	Hours	Internal	External	Total
Theory				
13. Medical Surgical Nursing- II	3	25	75	100
14. Child Health Nursing	3	25	75	100
15. Mental Health Nursing	3	25	75	100
16. Nursing Research & Statistics	3	25	75	100
Practical and Viva Voce				
3. Medical - Surgical Nursing- II		50	50	100
4. Child Health Nursing		50	50	100
5. Mental Health Nursing		50	50	100

FOURTH YEAR

Subject	Assessment			
	Hours	Internal	External	Total
Theory				
17. Midwifery and Obstetrical Nursing	3	25	75	100
18. Community Health Nursing – II	3	25	75	100
19. Management of Nursing Services and Education	3	25	75	100
Practical and Viva Voce				
6. Midwifery and Obstetrical Nursing	3	50	50	100
7. Community Health Nursing	3	50	50	100

Note:

1. Anatomy and physiology –Question paper will consist of section A Anatomy of 37 marks and Bphysiology should be 38 marks.
2. Nutrition and Biochemistry and question paper will consist of section a Nutrition of 45 marks and sectionB of Biochemistry of 30 marks.
3. Pharmacology, genetics, pathology: Section A of Pharmacology with 38 marks, Section B Pathology of25 and genetics with 12 marks.
4. Nursing Research & Statistics- Nursing Research should be of 50 marks and Statistics of 25 marks.
5. Minimum pass marks shall be 40% for English only and to be conducted as college exam and marks to be sent to university for inclusion in mark sheet.
6. Theory and practical exams for introduction to computer to be conducted as college exam and marks to besent to the University for Inclusion in the mark sheet
7. Minimum pass marks shall be 50% in each of the Theory and Practical papers separately.
8. A candidate has to pass in theory and practical paper exam separately in each of the paper
9. Candidate must pass in internal and external examinations in each of the papers separately.
10. If a candidate fails in either theory or practical paper he/she has to re-appear for both papers (Theory andpractical).
11. The candidate if fails can be permitted for admission to next year.
12. The candidate shall have to clear all the previous examination before appearing for final yearexamination.
13. The maximum period to complete the course successfully should not exceed 8 year.
14. A candidate must have minimum of 80% attendance (irrespective of the kind of absence) in theory andpractical in each subject for appearing for examination.
15. A candidate must have 100% attendance in each of the practical areas before award of degree.
16. No institution shall submit average internal marks of the students more than 75% i.e.,if 40 students are admitted in a course ,the average score of the 40 students shall not exceed 75% of total internal marks.(Examples of 5 students: A=25,B=20,C=22,D=21,E=24 Average score =89.6%. This will not be accepted by the State Nursing Registration Council)
17. Maximum number of Candidates for practical examination should not exceed 20 per year.
18. All practical examinations must be held in the respective clinical areas.
19. One internal and one external examiner should jointly conduct practical examination for each student.
20. An examiner should be a lecture or above in a college of nursing with M.sc. (N) in concerned subject and minimum of 3 years of teaching experience in the collegiate program. To be an examiner for nursing foundation course faculty having M.sc (N) with any specialty shall be considered.
21. On completion of internship, internal assessment of 100 marks should be sent to the University for Inclusion in the mark sheets.
22. Final year marks shall be withheld till the candidate completes required attendance for practical and internship.

MALWANCHAL UNIVERSITY

CURRICULUM

MALWANCHAL UNIVERSITY

ENGLISH

Placement – First Year

Time: Theory – 60 hours

Course Description: The Course is designed to enable students to enhance ability to comprehend spoken and written English (and use English) required for effective communication in their professional work. Students will practice their skills in verbal and written English during clinical and classroom experience.

Unit	Time (Hrs)	Learning Objectives	Content	Teaching Learning Activities	Assessment Methods
I	10	* Speak and write grammatically correct English	* Review of Grammar * Remedial study of Grammar * Building Vocabulary * Phonetics * Public Speaking	* Demonstrate use of dictionary * Class room conversion * Exercise on use of grammar * Practice in public speaking	* Essay type * Objective type * Fill in the blanks * Paraphrasing
II	30	* Develop ability to read, understand and express meaningfully the prescribed text	* Read and comprehend prescribed course books	* Exercise on : ▪ Reading ▪ Summarizing ▪ Comprehension	* Essay type * Short answers * Essay types
III	10	* Develop writing skills	* Various forms of Composition ▪ Letter writing ▪ Note taking ▪ Precise writing ▪ Nurses notes ▪ Anecdotal records ▪ Diary writing ▪ Reports on health problems etc. ▪ Resume/CV	* Exercises on writing ▪ Letter writing ▪ Nurses Notes ▪ Precise ▪ Diary ▪ Anecdote ▪ Health problems ▪ Story writing ▪ Resume/CV * Essay Writing ▪ Discussion on written reports/ documents	* Essay type * Assessment of the skills based on the check list.

IV	6	*Develop skill in spoken English	* Spoken English <ul style="list-style-type: none"> ▪ Oral report ▪ Discussion ▪ Debate ▪ Telephonic Conversation 	* Exercise on: <ul style="list-style-type: none"> ▪ Debating ▪ Participating in Seminar, panel, symposium ▪ Telephonic Conversation 	*Assessment of the skills based on the check list.
V	4	*Develop skill in listening comprehension	* Learning Comprehension <ul style="list-style-type: none"> ▪ Media, audio, video, speeches etc 	* Exercise on: <ul style="list-style-type: none"> ▪ Listening to audio, video tapes and identify the key points 	* Assessment of the skills based on the check list.

MALWANCHAL UNIVERSITY

ANATOMY

Placement – First year

Time: Theory – 60 hours

Course Description: The course is designed to enable students to acquire knowledge of the normal structure of various human body systems and understand the alterations in anatomical structures in disease and practice of nursing.

Unit	Time (Hrs)	Learning Objectives	Content	Teaching Learning Activities	Assessment Method
I	5	* Describe the anatomical terms, organization of human body and structure of cell, tissues, membranes and glands.	Introduction to Anatomical terms organization of the human body * Human Cell structure * Tissues – Definition, Types, characteristics, classification, location, functions & formation. * Membranes and glands – classification and structure Alterations in disease Applications and implications in nursing	* Lecture discussion * Explain using charts, microscopic slides, Skeleton & torso * Demonstrate cells, types of tissues membranes and glands * Record book	* short answer questions *Objective type
II	6	* Describe the structure & function of bones and joints	The Skeletal System * Bones – types, structure, Axial & Appendicular Skeleton, * Bone formation and growth * Description of bones * Joints classification and structure Alterations in disease Applications and implications in nursing	* Lecture discussion * Explain using charts, skeleton, loose bones and joints * Record book	* short answer questions *Objective type
III	7	* Describe the structure and function of muscles	The Muscular System * Types and structure of muscles * Muscle groups Alterations in disease Applications and implications in nursing.	* Lecture discussion * Explain using chart, models and films * Demonstrate muscular movements * Record book	* short answer questions *Objective type
IV	6	* Describe the structure & function of nervous system	The Nervous System * Structure of neurologic & neurons * Somatic Nervous system ▪ Structure of brain, spinal chord, cranial	* Lecture discussion * Explain using models, charts, slides, specimens * Record book	* short answer questions *Objective type

			<p>nerves, spinal nerves, peripheral nerves</p> <p>* Autonomic Nervous System – Sympathetic, parasympathetic</p> <p>*Structure, location</p> <p>Alterations in disease</p> <p>Applications and implications in nursing</p>		
V	6	Explain the structure & functions of sensory organs	<p>The Sensory Organs</p> <p>* Structure of skin, eye, ear, nose tongue, (Auditory and olfactory apparatus)</p> <p>Alterations in disease</p> <p>Applications and implications in nursing</p>	<p>* Lecture discussion</p> <p>* Explain using models, charts, slides, specimens</p> <p>* Record book</p>	<p>* short answer questions</p> <p>*Objective type</p>
VI	7	Describe the structure & function of circulatory and lymphatic system	<p>Circulatory and lymphatic system</p> <p>* The Circulatory System</p> <ul style="list-style-type: none"> ▪ Blood – Microsoft structure ▪ Structure of Heart ▪ Structure of blood vessels- Arterial & Venous System ▪ Circulation: Systemic, pulmonary, coronary <p>* Lymphatic System</p> <ul style="list-style-type: none"> ▪ Lymphatic vessels & lymph ▪ Lymphatic tissues <ul style="list-style-type: none"> - Thymus gland - Lymph nodes - Spleen - Lymphatic tissues <p>Alterations in disease</p> <p>Applications and implications in nursing.</p>	<p>* Lecture discussion</p> <p>* Explain using models, charts, slides, specimens</p> <p>*Record book</p>	<p>* short answer questions</p> <p>*Objective type</p>
VII	5	* Describe the structure & functions of respiratory system.	<p>The Respiratory System</p> <p>* Structure of the organs of respiration</p> <p>* Muscles of respiration: Intercostals and Diaphragm</p> <p>Alterations in disease</p> <p>Applications and implications in nursing</p>	<p>* Lecture discussion</p> <p>* Explain using models, charts slides, specimens</p> <p>* Record book</p>	<p>* short answer questions</p> <p>*Objective type</p>

VIII	6	* Describe the structure & functions of digestive system.	The Digestive System * Structure of Alimentary tract and accessory organs of digestion Alterations in disease Applications and implications in nursing	* Lecture discussion * Explain using models, charts slides, specimens * Record book	* short answer questions *Objective type
IX	4	* Describe the structure & functions of excretory system	The Excretory system (Urinary) * Structure of organs of urinary * System: Kidney, Ureters, urinary, bladder, urethra, structure of skin Alterations in disease Applications and implications in nursing	* Lecture discussion * Explain using models, charts slides, specimens * Record book	* short answer questions *Objective type
X	4	* Describe the structure & functions of endocrine system	The Endocrine system * Structure of Pituitary, Pancreas, thyroid, Parathyroid, thymus and adrenal glands Alterations in disease Applications and implications in nursing	* Lecture discussion * Explain using models, charts slides, specimens * Record book	* short answer questions *Objective type
XI	4	* Describe the structure & functions of reproductive system	The Reproductive system including breast * Structure of female reproductive organs * Structure of male reproductive organs * Structure of breast Alterations in disease Applications and implications in nursing	* Lecture discussion * Explain using models, charts slides, specimens * Record book	* short answer questions *Objective type

PHYSIOLOGY

Placement – First Year

Time: Theory – 60 Hours

Course Description: The Course is designed to assist the students to acquire knowledge of the normal physiology of various human body systems and understand the alterations in physiology in diseases and practice of nursing.

Unit	Time (Hrs)	Learning Objectives	Content	Teaching Learning Activities	Assessment Methods
I	4	* Describe the physiology of cell, tissues, membranes and glands	Cell Physiology * Tissue formation, repair * Membranes & glands – functions Alterations in disease Applications and implications in nursing	* Lecture discussion	* short answer questions *Objective type
II	4	* Describe the bone formation and growth and movements of skeleton system	Skeletal System * Bone formation & growth * Bones – Functions and movements of bones of axial and appendicular skeleton, bone healing * Joints and joint movement Alterations in disease Applications and implications in nursing	* Lecture discussion * Explain using charts, models and films * Demonstration of joint movements	* short answer questions *Objective type
III	4	* Describe the muscle movements and tone and demonstrate muscle contraction and tone	Muscular System * Muscle movements, Muscle tone, Physiology of muscle contraction, levels and maintenance of posture Alterations in disease Applications and implications in nursing	* Lecture discussion * Explain using Charts, models, slides, specimen and films *Demonstration of muscle movements, tone and contraction	* short answer questions *Objective type
IV	7	* Describe the physiology of nerve stimulus, reflexes, brain, cranial and spinal nerves *Demonstrate reflex action and	Nervous System * Functions of Neurologia & neurons * Stimulus & nerve-impulse- definitions and mechanism * Functions of brain, spinal cord, cranial and spinal nerves * Cerebrospinal fluid-composition, circulation and function * Reflex arc, Reflex action	* Lecture discussion * Explain using, Charts, models and films * Demonstrate nerve stimulus, reflex action, reflexes	* short answer questions *Objective type

		stimulus	and reflexes * Automatic functions – ▪ Pain: somatic, visceral and referred ▪ Automatic learning and biofeedback Alterations in disease Applications and implications in nursing		
V	8	* Describe the physiology of blood and functions of Heart * Demonstrate blood cell count, coagulation, grouping Hb: BP and Pulse monitoring	Circulatory System * Blood formation, composition, blood groups, blood coagulation * Hemoglobin: Structure, Synthesis and breakdown, Variation of molecules, estimation * Functions of Heart, Conduction, Cardiac cycle, circulation-Principles, Control, factors influencing BP and Pulse Alterations in disease Applications and implications in nursing	* Lecture discussion * Explain using charts, films * Demonstration of Blood cell count, coagulation, grouping, Hemoglobin estimation, Heart conduction system. * Measurement of pulse, BP	* short answer questions * Objective type
VI	6	* Describe the physiology and mechanisms of respiration * Demonstrate spirometry	The Respiratory System * Functions of respiratory organs * Physiology of respiration * Pulmonary ventilation, Volume * Mechanics of respiration * Gaseous exchange in lungs * Carriage of oxygen & carbon-dioxide * Exchange of gases in tissues * Regulation of respiration, Alterations in disease Applications and implications in nursing.	* Lecture discussion * Explain using Charts, films * Demonstration of spirometry	* short answer questions * Objective type
VII	6	* Describe the Physiology of digestive system * Demonstrate BMR	The Digestive System * Functions of organs of digestive tract. Movements of alimentary tract, Digestion in mouth, stomach, small intestines, Large intestines, Absorption of food. Functions of liver,	* Lecture discussion * Explain using Charts, Films	* short answer questions * Objective type

			gall bladder and pancreas * Metabolism of carbohydrates, protein and fat		
VIII	5	*Describe the Physiology of excretory system	The Excretory System * Functions of kidneys, ureters, urinary bladder & urethra * Composition of urine * Mechanism of urine formation * Functions of skin * Regulation of body temperature * Fluid and electrolyte balance Alterations in disease Applications and implications in nursing	* Lecture discussion * Explain using Charts, films	* short answer questions *Objective type
IX	4	*Describe the physiology of sensory organs	The Sensory Organs * Functions of skin, eye, ear, nose, tongue, Alterations in disease Applications and implications in nursing.	* Lecture discussion * Explain using Charts, films	* short answer questions *Objective type
X	5	*Describe the physiology of endocrine glands	The Endocrine Glands * Functions of Pituitary, pineal body, thymus, Thyroid, parathyroid, pancreas, Suprarenal, Placenta and ovaries & Testes Alterations in disease Applications and implications in nursing.	* Lecture discussion * Explain using Charts, films * Demonstration of BMR	* short answer questions *Objective type
XI	5	*Describe the physiology of male and female reproductive system	The Reproductive System * Reproduction of cells – DNA, Mitosis, Meiosis, spermatogenesis, oogenesis. * Functions of female reproductive organs; Functions breast, Female sexual cycle. * Introduction to embryology * Functions of male reproductive organs, Male	* Lecture discussion *Explain using Charts, films models, specimens	* short answer questions *Objective type

			function in reproduction, Male fertility system Alterations in disease Applications and implications in nursing		
XII	2	*Describe the Physiology of Lymphatic and Immunolog ical System	Lymphatic & Immunological System * Circulation of lymph * Immunity <ul style="list-style-type: none"> ▪ Formation of T-cells and B cells ▪ Types of Immune response ▪ Antigens ▪ Cytokines ▪ Antibodies 	* Lecture discussion *Explain using Charts, films	* short answer questions *Objective type

MALWANCHAL UNIVERSITY

NUTRITION

Placement: First Year

Time: Theory: 60hours

Course of Description: The course is designed to assist the students to acquire knowledge of nutrition for maintenance of optimum health at different stages of life and its application for practice of nursing

Unit	Time (Hrs)		Learning Objectives	Content	Teaching Learning Activities	Assessment Methods
	Th	Pr				
I	4		<ul style="list-style-type: none"> * Describe the relationship between nutrition & Health 	<p>Introduction</p> <ul style="list-style-type: none"> * Nutrition: <ul style="list-style-type: none"> ▪ History ▪ Concepts * Role of nutrition in maintaining health * Nutritional problems in India * National nutritional policy * Factors affecting food and nutrition: socio-economic, cultural, tradition, production, system of distribution, life style and food habits etc. * Role of food and its medicinal value * Classification of foods * Food standards * Elements of nutrition: macro and micro * Calorie, BMR 	<ul style="list-style-type: none"> * Lecture Discussion * Explaining using charts * Panel discussion 	<ul style="list-style-type: none"> * short answer questions *Objective type
II	2		<ul style="list-style-type: none"> * Describe the classification, functions, sources and recommended daily allowances (RDA) of carbohydrates 	<p>Carbohydrates</p> <ul style="list-style-type: none"> * Classification * Calorie Value * Recommended daily allowances * Dietary sources * Functions * Digestion, absorption and storage, metabolism of carbohydrates * Malnutrition: Deficiencies and Over consumption 	<ul style="list-style-type: none"> * Lecture discussion * Explaining using charts 	<ul style="list-style-type: none"> * short answer questions *Objective type

III	2	* Describe the classification, functions, sources and recommended daily allowances (RDA) of Fats	Fats * Classification * Caloric value * Recommended daily allowances * Dietary sources * Functions * Digestion, absorption and storage, metabolism * Malnutrition: Deficiencies and over consumption	* Lecture discussion * Explaining using charts	* short answer questions *Objective type
IV	2	* Describe the classification, functions, sources and recommended daily allowances (RDA) of Proteins	Proteins * Classification * Caloric value * Recommended daily allowances * Dietary sources * Functions * Digestion, absorption, metabolism and storage * Malnutrition: Deficiencies and Over consumption	* Lecture discussion * Explaining using charts	* short answer questions *Objective type
V	3	* Describe the daily calorie requirement for different categories of people	Energy * Unit of Energy – Kcal * Energy requirements of different categories of people * Measurements of energy * Body Mass Index (BMI) and basic metabolism * Basal Metabolic Rate (BMR) - determination and factors affecting	* Lecture discussion * Explaining using charts * Exercise *Demonstration	* short answer questions *Objective type
VI	4	* Describe the classification, functions, sources and recommended daily allowances (RDA) of Vitamins	Vitamins * Classification * Recommended daily allowances * Dietary sources * Functions * Absorption, synthesis, metabolism storage and excretion * Deficiencies * Hypervitaminosis	* Lecture discussion * Explaining using charts	* short answer questions *Objective type

VII	4		<ul style="list-style-type: none"> * Describe the classification, functions, sources and recommended daily allowances (RDA) of Minerals 	<p>Minerals</p> <ul style="list-style-type: none"> * Classification * Recommended daily allowances * Dietary sources * Functions * Absorption, synthesis, metabolism storage and excretion * Deficiencies * Over consumption and toxicity 	<ul style="list-style-type: none"> * Lecture discussion * Explaining using charts 	<ul style="list-style-type: none"> * short answer questions * Objective type
VIII	3		<ul style="list-style-type: none"> * Describe the sources, functions and requirements of Water & electrolytes 	<p>Water & electrolytes</p> <ul style="list-style-type: none"> * Water: Daily requirement, regulation of water metabolism, distribution of body water, * Electrolytes: Types, sources, composition of body fluids * Maintenance of fluid & electrolyte balance * Over hydration, dehydration and water intoxication * electrolyte imbalances 	<ul style="list-style-type: none"> * Lecture discussion * Explaining using charts 	<ul style="list-style-type: none"> * short answer questions * Objective type
IX	5	15	<ul style="list-style-type: none"> * Describe the Cookery rules and preservation of nutrients * Prepare and serve simple beverages and different types of foods 	<p>Cookery rules and preservation of nutrients</p> <ul style="list-style-type: none"> * Principles, methods of cooking and serving <ul style="list-style-type: none"> ▪ Preservation of nutrients * Safe Food handling-toxicity * Storage of food * Food preservation, food additives and its principles * prevention of food adulteration Act (PFA) * Food standards * Preparation of simple beverages and different types of food 	<ul style="list-style-type: none"> * Lecture discussion * Demonstration * Practice session 	<ul style="list-style-type: none"> * short answer questions * Objective type

X	7	5	<p>* Describe and plan balanced diet for different categories of people</p>	<p>Balanced diet</p> <ul style="list-style-type: none"> * Elements * Food groups * Recommended Daily allowance * Nutritive value of foods * Calculation of balanced diet for different categories of people * Planning menu * Budgeting of food * Introduction to therapeutic diets: Naturopathy – diet 	<ul style="list-style-type: none"> * Lecture discussion * Explaining with slide /film shows * Demonstration of assessment of nutritional status 	<ul style="list-style-type: none"> * short answer questions *Objective type
XI	4		<ul style="list-style-type: none"> * Describe various national programmes related to nutrition * Describe the role of nurse in assessment of nutritional status and nutrition education 	<p>Role of nurse in nutritional programmes</p> <ul style="list-style-type: none"> * National programmes related to nutrition <ul style="list-style-type: none"> ▪ Vitamin A deficiency programme ▪ National iodine deficiency disorders (IDD) programme ▪ Mid-day meal programme ▪ Integrated child development scheme (ICDS) * National and International agencies working towards food/nutrition <ul style="list-style-type: none"> ▪ NIPCCD, CARE, FAO, NIN, CFTRI (Central food technology and research institute) etc. * Assessment of nutritional status * Nutrition education and role of nurse 	<ul style="list-style-type: none"> * Lecture Discussion * Explaining with <ul style="list-style-type: none"> * Slide / Film shows * Demonstration of Assessment of nutritional status 	<ul style="list-style-type: none"> * short answer questions *Objective type

BIOCHEMISTRY

Placement – First Year

Time: Theory –30 Hours

Course Description: The Course is designed to assist the students to acquire knowledge of the normal biochemical composition and functioning of human body and understand the alterations in biochemistry in diseases for practice of nursing.

Unit	Time (Hrs)	Learning Objectives	Content	Teaching Learning Activities	Assessment Methods
I	3	<ul style="list-style-type: none"> *Describe the structure Composition and functions of cell *Differentiate between Prokaryote & Eukaryote cell * Identify techniques of Microscopy 	<p>Introduction</p> <ul style="list-style-type: none"> * Definition and significance in nursing * Review of structure, Composition and functions of cell * Prokaryote and Eukaryote cell organization * Microscopy 	<ul style="list-style-type: none"> * Lecture discussion using charts, slides * Demonstrate use of microscope 	<ul style="list-style-type: none"> * short answer questions *Objective type
II	6	<ul style="list-style-type: none"> * Describe the structure and functions of cell membrane 	<p>Structure and functions of Cell membrane</p> <ul style="list-style-type: none"> * Fluid mosaic model tight junction, Cytoskeleton * Transport mechanism: diffusion osmosis, filtration, active channel, sodium pump * Acid base balance-maintenance & diagnostic tests <ul style="list-style-type: none"> ▪ PH buffers 	<ul style="list-style-type: none"> * Lecture discussion 	<ul style="list-style-type: none"> * short answer questions *Objective type
III	6	<ul style="list-style-type: none"> * Explain the metabolism of carbohydrates 	<p>Composition and metabolism of Carbohydrates</p> <ul style="list-style-type: none"> * Types, structure, composition and uses <ul style="list-style-type: none"> ▪ Monosaccharides, Disaccharides, Polysaccharides Oligosaccharides * Metabolism <ul style="list-style-type: none"> ▪ Pathways of glucose: <ul style="list-style-type: none"> • Glycolysis • Gluconeogenesis: Cori's cycle, Tricarboxylic acid (TCA) cycle • Glycogenolysis • Pentose phosphate ▪ Pathways (Hexose mono 	<ul style="list-style-type: none"> * Lecture discussion *Demonstration of Blood glucose monitoring 	<ul style="list-style-type: none"> * short answer questions *Objective type

			phosphate) Regulation of blood glucose level Investigations and their interpretation		
IV	4	* Explain the metabolism of Lipids	<p>Composition and metabolism of Lipids</p> <ul style="list-style-type: none"> * Types, Structure, composition and uses of fatty acids <ul style="list-style-type: none"> ▪ Nomenclature, Roles and Prostaglandins * Metabolism of fatty acid <ul style="list-style-type: none"> ▪ Breakdown ▪ Synthesis * Metabolism of triacylglycerols * Cholesterol metabolism <ul style="list-style-type: none"> ▪ Biosynthesis and its Regulation • Bile salts and bilirubin • Vitamin D • Steroid hormones * Lipoproteins and their functions <ul style="list-style-type: none"> ▪ VLDLs- IDLs, LDLs and HDLs ▪ Transport of lipids ▪ Atherosclerosis, Investigations and their interpretation 	* Lecture discussion using charts * Demonstration of laboratory tests	* short answer questions * Objective type
V	6	* Explain the metabolism of Amino acids and Proteins	<p>Composition and metabolism of Amino acids and Proteins</p> <ul style="list-style-type: none"> * Types, structure, composition and uses of Amino acids and Proteins * Metabolism of Amino acids and Proteins <ul style="list-style-type: none"> ▪ Protein synthesis, targeting and Glycosylation ▪ Chromatography ▪ Electrophoresis ▪ Sequencing * Metabolism of Nitrogen <ul style="list-style-type: none"> ▪ Fixation and Assimilation ▪ Urea Cycle ▪ Hemes and chlorophylls * Enzymes and co-enzymes <ul style="list-style-type: none"> ▪ Classification ▪ Properties ▪ Kinetics and inhibition 	* Lecture discussion using charts * Demonstration of laboratory tests	* short answer questions * Objective type

			<ul style="list-style-type: none"> ▪ Control Investigations and their interpretations 		
VI	2	*Describe types, composition and utilization of Vitamins & minerals	<p>Composition of Vitamins and minerals</p> <p>* Vitamins and minerals:</p> <ul style="list-style-type: none"> ▪ Structure, Classification, Properties, Absorption ▪ Storage & transportation ▪ Normal concentration <p>*investigations and their interpretation</p>	* Lecture discussion using charts *Demonstration of laboratory tests	* short answer questions *Objective type
VII	3	*Describe Immuno-chemistry	<p>Immunochemistry</p> <p>* Immune response,</p> <p>* Structure and classification of immunoglobins</p> <p>* Mechanism of antibody production</p> <p>* Antigens: HLA typing</p> <p>* Free radical and Antioxidants</p> <p>* Specialized Protein: Collagen, Elastin, Keratin, Myosin, Lens Protein.</p> <p>* Electrophoretic and Quantitative determination of immunoglobins – ELISA etc.</p> <p>Investigations and their interpretations</p>	* Lecture discussion using charts *Demonstration of laboratory tests	* short answer questions *Objective type

NURSING FOUNDATIONS

Placement: First Year

Time: Theory - 265 hours
Practical - 650 hours
(200 lab and 450 clinical)

Course Description: This course is designed to help the students to develop an understanding of the philosophy, objectives, theories and process of nursing in various Supervised Clinical settings. It is aimed at helping the students to acquire knowledge, understanding and skills in techniques of nursing and practice them in Supervised Clinical settings.

Unit	Time (Hrs)	Learning Objectives	Content	Teaching Learning Activities	Assessment Methods
I	10	<ul style="list-style-type: none"> * Describe the concept of health, illness and health care agencies 	<p>Introduction</p> <ul style="list-style-type: none"> * Concept of Health: Health – illness continuum * Factors influencing health * Causes and risk factors for developing illness * Body defenses: Immunity and immunization * Illness and illness Behavior: * Impact of illness on patient and family * Health Care Services: Health Promotion and Prevention, Primary Care, Diagnosis, Treatment, Rehabilitation and Continuing Care * Health care teams * Types of health care agencies * Hospitals: Types, Organization and Functions * Health Promotion and Levels of Disease Prevention * Primary Health care and its delivery: Role of nurse 	<ul style="list-style-type: none"> * Lecture discussion * Visit to health care agencies 	<ul style="list-style-type: none"> * Essay type * short answer questions * Objective type
II	16	<ul style="list-style-type: none"> * Explain concept and scope of nursing * Describe values, code of ethics and professional conduct for nurses of India 	<p>Nursing as a profession</p> <ul style="list-style-type: none"> * Definition and Characteristics of a profession * Nursing: <ul style="list-style-type: none"> ▪ Definition, Concepts, philosophy, objectives ▪ Characteristics, nature and scope of nursing practice ▪ Functions of nurse ▪ Qualities of a nurse ▪ Categories of nursing personnel 	<ul style="list-style-type: none"> * Lecture discussion * Case discussion * Role plays 	<ul style="list-style-type: none"> * Essay type * short answer questions * Objective type

			<ul style="list-style-type: none"> ▪ Nursing as a profession ▪ History of Nursing in India. <p>* Values: Definition, Types, Values Classification and values in professional Nursing: Caring & Advocacy</p> <p>* Ethics:</p> <ul style="list-style-type: none"> ▪ Definition and Ethical Principles ▪ Code of ethics and professional conduct for nurses 		
III	4	<p>* Explain the admission and discharge procedure</p> <p>* Performs admission and discharge procedure</p>	<p>Hospital admission and discharge</p> <p>* Admission to the hospital</p> <ul style="list-style-type: none"> ▪ Unit and its preparation-admission bed ▪ Admission procedure ▪ Special considerations ▪ Medico-legal issues ▪ Roles and Responsibilities of the nurse <p>* Discharge from the hospital</p> <ul style="list-style-type: none"> ▪ Types: Planned discharge, LAMA and abscond, Referrals and transfers ▪ Discharge Planning ▪ Discharge procedure ▪ Special consideration ▪ Medico-legal issues ▪ Roles and Responsibilities of the nurse ▪ Care of the unit after discharge 	<p>* Lecture discussion</p> <p>* Demonstration</p> <p>* Lab Practice</p> <p>* Supervised Clinical practice</p>	<p>* Essay type</p> <p>* short answer questions</p> <p>*Objective type</p> <p>* Assess skills with check list</p> <p>*clinical practical Examination</p>
IV	10	<p>*Communicate effectively with patient, families and team members and maintain effective human relations (projecting professional image)</p> <p>*</p>	<p>Communication and Nurse patient relationship</p> <p>* Communication: Levels, Elements, Types, Modes, Process, Factors influencing Communication</p> <ul style="list-style-type: none"> ▪ Methods of Effective Communication, • Attending skills • Rapport building skills • Empathy skills ▪ Barriers to effective communication, <p>* Helping Relationship (NPR): Dimensions of Helping Relationships, Phase of a helping relationship</p> <p>* Communicating effectively with</p>	<p>* Lecture discussion</p> <p>* Role play and video film on the nurses interacting with the patient</p> <p>* Practice session on patient teaching</p> <p>* Supervised Clinical Practice</p>	<p>* Essay type</p> <p>* short answer questions</p> <p>*Objective type</p>

		Appreciate the importance of patient teaching in nursing	patient, families and team members and maintain effective human relations with special reference to communicating with vulnerable group(children, women, physically and mentally challenged and elderly) * Patient Teaching: Importance, Purposes, Process, role of nurse and Integrating teaching in Nursing Process.		
V	15	* Explain the concept, uses, format and steps of nursing process * Documents nursing process as per the format	The Nursing Process * Critical Thinking and Nursing Judgment <ul style="list-style-type: none"> ▪ Critical Thinking: Thinking and Learning ▪ Competencies, Attitudes for Critical Thinking, Levels of critical thinking in Nursing * Nursing Process Overview: Application in Practice <ul style="list-style-type: none"> ▪ Nursing process format: INC, current format ▪ Assessment - Collection of Data : Types, Sources, Methods - Formulating Nursing Judgment: Data interpretation ▪ Nursing Diagnosis - Identification of client problems - Nursing diagnosis statement - Difference between medical and nursing diagnosis ▪ Planning - Establishing Priorities - Establishing Goals and Expected Outcomes - Selection of interventions : Protocols and standing Orders - Writing the Nursing Care Plan ▪ Implementation - Implementing the plan of care ▪ Evaluation - Outcome of care - Review and Modify ▪ Documentation & Reporting 	* Lecture discussion * Demonstration * Exercise * Supervised Clinical Practice	* Essay type * short answer questions * Objective type
VI	4	* Describe the purposes, types and	Documentation and Reporting * Documentation : Purposes of Recording and reporting * Communication within the Health	* Lecture discussion * Demonstration	* Essay type * short answer

		techniques of recording and reporting	<p>Care Team</p> <ul style="list-style-type: none"> * Types of records; ward records, medical/nursing records, * Common Record-keeping forms, Computerized documentation * Guidelines for Reporting: Factual Basis, Accuracy, Completeness, correctness', Organization, confidentiality * Methods of Recording * Reporting: Change of shift reports: Transfer reports, incident reports <ul style="list-style-type: none"> • Minimizing legal Liability through effective record keeping 	<ul style="list-style-type: none"> * Practice Session * Supervised Clinical Practice 	<p>questions</p> <ul style="list-style-type: none"> *Objective type
VII	15	<ul style="list-style-type: none"> * Describe principles and techniques of monitoring and maintaining vital signs * Monitor and maintain vital signs 	<p>Vital signs</p> <ul style="list-style-type: none"> * Guidelines for taking vital signs : * Body temperature: <ul style="list-style-type: none"> ▪ Physiology, Regulation, Factors affecting body temperature, ▪ Assessment of body temperature: sites, equipments and technique, special considerations ▪ Temperature alterations: Hyperthermia, Heatstroke, Hypothermia ▪ Hot and cold applications * Pulse: <ul style="list-style-type: none"> ▪ Physiology & Regulation, Characteristics of the pulse, Factors affecting pulse ▪ Assessment of the pulse: sites, location, equipments and technique, special considerations ▪ Alterations in pulse: * Respiration <ul style="list-style-type: none"> ▪ Physiology and Regulation, Mechanics of breathing Characteristics of the respiration, Factors affecting respiration ▪ Assessment of respirations: Technique, special considerations ▪ Alterations in respiration * Blood pressure : <ul style="list-style-type: none"> ▪ Physiology and Regulation, 	<ul style="list-style-type: none"> * Lecture discussion * Demonstration * Practice * Supervised Clinical Practice 	<ul style="list-style-type: none"> * Essay type * short answer questions * Objective type * Assess with check list and clinical practical examination

NURSING FOUNDATIONS – PRACTICAL

Placement: First Year

**Time: Practical – 650 hours
(200 lab and 450 clinical)**

Course Description: This Course is designed to help the students to develop an understanding of the philosophy, objectives, theories, and process of nursing in various clinical settings. It is aimed at helping the students to acquire knowledge, understanding and skills in techniques of nursing and practice them in clinical setting

Areas	Time (Hrs)	Objectives	Skills	Assignments	Assessment Methods
Demonstration Lab General Medical and Surgery ward	200 450 Minimum practice time in clinical area: 100	<p>* Performs admission and discharge procedure</p> <p>* Prepares nursing care plans as per the nursing process format</p>	<p>Hospital admission and discharge (III) * Admission * Prepare Unit for new patient * Prepare admission bed * Performs admission procedure o New patient o Transfer in * Prepare patient records Discharge / Transfer out * Gives discharge counseling * Perform discharge procedure (Planned discharge, LAMA and abscond, Referrals and transfers) * Prepare records of discharge/transfer * Dismantle, and disinfect unit and equipment after discharge / transfer.</p> <p>Perform assessment: * History taking, Nursing diagnosis, problem list, Prioritization, Goals & Expected Outcomes, selection of interventions * Write Nursing Care Plan * Gives care as per the plan</p>	<p>* Practice in Unit/hospital</p> <p>* Write nursing process records of patient * Simulated-1 * Actual - 1</p>	<p>* Evaluate with checklist * Assessment of clinical performance with rating scale * Competition of practical record</p> <p>* Assessment of nursing process records with checklist * Assessment of actual care given with rating scale</p> <p>* Assess role plays</p>

		<p>*Communicate effectively with patient, families and tea members and</p> <p>* Maintain effective human relations * Develops plan for patient teaching * Prepare patient reports * Presents reports * Monitor vital sign * Perform heath assessment of each body system</p> <p>* Provide basic</p>	<p>Communication * Use verbal and non verbal communication techniques</p> <p>Prepare a plan for patient teaching session</p> <p>Write patient report * Change-of shift reports, Transfer reports, Incident reports etc. * Presents patient report</p> <p>Vital Signs * Measure, Records and interpret alterations in body temperature, pulse respiration and blood pressure</p> <p>Health assessment * Health history taking * Perform assessment: <ul style="list-style-type: none"> o General o Body system * Use various methods of physical examination * Inspection, Palpation, Percussion, Auscultation, Olfaction * Identification of system wise deviations</p> <p>Prepare Patient's unit: * Prepare beds: <ul style="list-style-type: none"> o Open, closed, occupied, operation, amputation, o Cardiac, facture, burn, Divided, & Fowlers bed * Pain assessment and provision for comfort</p> <p>Use comfort devices</p> <p>Hygienic care</p>	<p>* Role-plays in simulated situations on communication techniques-1 * Health talk-1</p> <p>* Write nurses notes and present the patient report of 2-3 assigned patient</p> <p>* Lab practice * Measure Vital signs of assigned patient</p> <p>* Practice in lab & hospital</p> <p>* Simulated exercise on CPR manikin</p> <p>* Observa-</p>	<p>with the check list on communication techniques</p> <p>* Assess health talk with the checklist *Assessment of communication techniques by rating scale</p> <p>*Assessment of performance with rating scale</p> <p>*Assessment of each skill with checklist *Completion of activity record</p> <p>*Assessment of each skill with rating scale *Completion of activity record</p>
--	--	--	--	---	---

	nursing care to patients	<p>* Oral hygiene: * Baths and care of pressure points * Hair wash, Pediculosis treatment</p> <p>Feeding: * Oral, Enteral, Naso/Orogastric, gastrostomy and Parenteral feeding * Naso-gastric insertion, suction, and irrigation</p> <p>Assisting patient in urinary elimination * Provides urinal/bed pan * Condom drainage * Perineal care * Catheterization * Care of urinary drainage</p> <p>Bladder irrigation Assisting bowel Elimination: * Insertion of Flatus tube * Enemas * Insertion of Suppository</p> <p>Bowel wash Body Alignment and Mobility:</p> <ul style="list-style-type: none"> ○ Range of motion exercises ○ Positioning: Recumbent, Lateral (rt/lt), Flowers, Sims, Lithotomy, Prone, Trendelenburg position ○ Assist patient in Moving lifting, transferring, walking, ○ Restraints <p>Oxygen administration Suctioning: Oropharyngeal, nasopharyngeal Chest physiotherapy and postural drainage Care of Chest drainage CPR-Basic life support Intravenous therapy Blood and blood</p>	<p>tion study - 2</p> <p>* Department of Infection control & CSSD</p> <p>* Visits CSSD write observation report 1</p> <p>* Collection of samples for culture * Do clinical postings in infection control department and write report * Practice in lab/ward</p>	
--	--------------------------	---	---	--

			<p>component therapy Collect/assist for collection of specimens for investigations Urine, sputum, faeces, vomitus, blood and other body fluids</p> <p>Perform lab tests: * Urine: sugar, albumin, acetone * Blood: sugar(with strip/ gluco-meter)</p> <p>Hot and cold applications: Local and general Sitz bath</p> <p>Communicating and assisting with self-care of visually & hearing impaired patients</p> <p>Communicating and assisting with self-care of mentally challenged/disturbed patients Recreational and diversional therapies.</p> <p>Caring of patient with alteration in Sensorium</p> <p>Infection control * Perform following procedures :</p> <ul style="list-style-type: none"> ○ Hand washing techniques ○ (Simple, hand antiseptis and surgical antiseptis (scrub) ○ Prepare isolation unit in lab/ward ○ Practice technique of wearing and removing Personal protective equipment (PPE) ○ Practice Standard safety precautions 			<p>* Evaluate all procedures with checklist</p>

MALWANACHAL UNIVERSITY

PSYCHOLOGY

Placement: First Year

Time: Theory 60 Hours

Course Description: This course is designed to assist the students to acquire knowledge of fundamentals of Psychology and develop an insight into behavior of self and others. Further it is aimed at helping them to practice the principles of mental hygiene for promoting mental health in nursing practice.

Unit	Time (Hrs)	Learning Objectives	Content	Teaching Learning Activities	Assessment Methods
I	2	* Describe the history, scope and methods of Psychology	Introduction: * History and origin of Science of Psychology * Definitions and scope of Psychology * Relevance to Nursing * Methods of Psychology	* Lecture Discussion	*Essay type *Short answers
II	4	* Explain the Biology of Human behavior	Biology of Behavior * Body mind relationship – modulation process in health and illness. * Genetics and behavior : Heredity and Environment * Brain and behavior: Nervous system, Neurons and synapse * Association cortex, Rt and Lt Hemispheres * Psychology of sensations * Muscular and glandular controls of behavior * Nature of behavior of an organism/integrated responses	*Lecture Discussion	* Essay type *Short answers
III	20	* Describe various cognitive processes and their applications	Cognitive processes * Attention: Types, determinants, duration and degree, alterations * Perception: Meaning, Principles, factors affecting, errors * Learning: Nature, Types, learner and learning, Factors influencing, laws and theories, process, transfer, study habits. * Memory: Meaning, types,	*Lecture Discussion *Psychometric assessment *Practice session	*Essay type *Short answers

			<p>nature factors influencing, development theories and methods of memorizing and forgetting</p> <ul style="list-style-type: none"> * Thinking: Types and levels, stages of development, relationship with language and communication * Intelligence: Meaning, classification, uses, theories * Aptitude: Concepts, types, individual differences and variability. * Psychometric assessments of cognitive processes * Alterations in cognitive processes * Applications 		
IV	8	<ul style="list-style-type: none"> * Describe motivation, emotions, stress, attitudes and their influence on behavior 	<p>Motivation and Emotional processes:</p> <ul style="list-style-type: none"> * Motivation: Meaning, concepts, types, theories, motives and behavior, conflicts and frustration, conflict resolution * Emotions and stress <ul style="list-style-type: none"> o Emotions: Definition, components, changes in emotions, theories, emotional adjustments, emotions in health and illness. o Stress: stressors, cycle, effect, adaptation and coping * Attitude: Meaning, nature, development, factors affecting, <ul style="list-style-type: none"> o Behaviour and attitudes o Attitudinal change * Psychometric assessments of emotions and attitudes * Alterations in emotions * Applications 	<ul style="list-style-type: none"> *Lecture Discussion *Role play *Case discussion *Demonstration 	<ul style="list-style-type: none"> *Essay type *Short answers
V	7	<ul style="list-style-type: none"> * Explain the concepts of 	<p>Personality</p> <ul style="list-style-type: none"> * Definitions, topography, 	<ul style="list-style-type: none"> *Lecture Discussion 	<ul style="list-style-type: none"> *Essay type *Short

		personality and its influence on behaviour	types, Theories * Psychometric assessments of personality * Alterations in personality * Applications	*Demonstration	answers
VI	7	* Describe Psychology of people during the life cycle	Developmental Psychology * Psychology of people at different ages from infancy to old age * Psychology of vulnerable individuals-challenged, women, sick, etc. * Psychology of groups	*Lecture Discussion *Case discussion	*Essay type *Short answers
VII	8	* Describe the characteristics of * Mentally health person * Explain ego defense mechanisms	Mental hygiene and mental Health * Concepts of mental hygiene and mental health * Characteristics of mentally healthy person * Warning signs of poor mental health * Promotive and Preventive mental health-strategies and services * Ego Defense mechanisms and implications * Personal and social adjustments * Guidance and counseling * Role of nurse	* Lecture Discussion * Case Discussion * Role Play *Demonstration	*Essay type *Short answers
VIII	4	* Explain the Psychological assessments and role of nurse	Psychological assessment & tests * Types, development, Characteristics, Principles, Uses, Interpretations and Role of nurse in psychological assessment	* Lecture Discussion * Demonstration * Practice sessions	*Assessment of practice

MICROBIOLOGY

Placement: First Year

**Time: Theory-60 Hours
(Theory 45+15 lab)**

Course Description: This course is designed to enable students to acquire understanding of fundamentals of Microbiology and identification of various microorganisms. It also provides opportunities for practicing infection control measures in hospital and community settings.

Unit	Time (Hrs)		Learning Objectives	Content	Teaching Learning Activities	Assessment Methods
	Th	Pr				
I	5		* Explain concepts and principles of microbiology and their importance in nursing	Introduction: * Importance and relevance to nursing * Historical perspective * Concepts and terminology * Principles of microbiology	* Lecture Discussion	*Short answer *Objective type
II	10	5	* Describe structure, classification morphology and growth of bacteria * Identify Micro-organisms	General characteristics of Microbes * Structure and classification of Microbes * Morphological types * Size and form of bacteria * Motility * Colonization * Growth and nutrition of microbes ○ Temperature ○ Moisture ○ Blood and body fluids * Laboratory methods for Identification of Micro-organisms * Staining techniques, Gram staining, Acid fast staining, Hanging drop preparation * Culture; various medias	* Lecture Discussion *Demonstration	*Short answer *Objective type
III	10	2	* Describe the methods of infection control * Identify the role of	Infection Control * Infection: Sources, portals of entry and exit, transmission * Asepsis * Disinfection: Types and methods * Sterilization: Types and	* Lecture Discussion *Demonstration * Visits to CSSD * Clinical	*Short answer *Objective type

			nurse in hospital infection control programme	<p>methods</p> <ul style="list-style-type: none"> * Chemotherapy and antibiotics * Standard safety measures * Biomedical waste management * Role of Nurse * Hospital acquired infection * Hospital infection control programme <ul style="list-style-type: none"> o Protocols, collection of samples, preparation of report and status of rate of infection in the unit/hospital, nurse's accountability, Continuing education etc. 	practice	
IV	12	4	* Describe the different disease producing organisms	<p>Pathogenic organisms</p> <ul style="list-style-type: none"> * Micro-organisms <ul style="list-style-type: none"> o Cocci – gram positive and gram negative o bacilli – gram positive and gram negative o Spirochete o Mycoplasma o Rickettsiae o Chlamydia * Viruses * Fungi-Superficial and Deep mycoses * Parasites * Rodents & vectors <p>Characteristics, Source, portal of entry, transmission of infection</p> <p>Identification of disease producing micro-organisms collection, handling and transportation of various specimens</p>	<ul style="list-style-type: none"> * Lecture Discussion * Demonstration * Clinical practice 	<ul style="list-style-type: none"> * Short answer * Objective type
V	8	4	Explain the concept of immunity, hypersensitivity and immunization	<p>Immunity</p> <ul style="list-style-type: none"> * Immunity – Types, classification, * Antigen & antibody reaction * Hypersensitivity – skin test, * Serological tests * Immunoprophylaxis <ul style="list-style-type: none"> o Vaccines & sera – Types & classification, storage and handling, cold chain o Immunization for various diseases o Immunization schedule 	<ul style="list-style-type: none"> * Lecture Discussion * Demonstration * Clinical practice 	<ul style="list-style-type: none"> * Short answer * Objective type

INTRODUCTION TO COMPUTERS

Placement: First Year

**Time: Theory – 45 Hours
(Theory 15 & Practical 30)**

Course Description: This course is designed for students to develop basic understanding of uses of computer and its application in Nursing.

Unit	Time (Hrs)		Learning Objectives	Content	Teaching Learning Activities	Assessment Methods
	Th	Pr				
1	3		* Identify & define various concepts used in computer * Identify application of computer in nursing	Introduction: * Concepts of Computers * Hardware and software; trends and technology * Application of computers in nursing.	* Lecture Discussion * Demonstration	* Short answers * Objective type
II	6	20	* Describe and Use the Disk Operating System * Demonstrate skill in the use of MS Office	* Introduction to disk – operating system <ul style="list-style-type: none"> ○ DOS ○ Windows (all version) * Introduction <ul style="list-style-type: none"> ○ MS-Word ○ MS-Excel with pictorial presentation ○ MS-Access ○ MS-Power point 	* Lecture Discussion * Demonstration * Practice session	* Short answers * Objective type * Practical Exam
III	2	3	* Demonstrate skill in using multimedia * Identify features of computer aided teaching and testing	* Multimedia; types & uses * Computer aided teaching & testing	* Lecture Discussion * Demonstration	* Short answers * Objective type * Practical Exam and Viva Voce
IV	1	3	* Demonstrate use of internet and Email	* Use of Internet and: e-mail	* Lecture Discussion * Demonstration	* Short answers * Objective type * Practical

						Exam and Viva Voce
V	2	2	* Describe and use the statistical packages	* Statistical packages: types and their features	* Lecture Discussion * Demonstration * Practice session	* Short answers * Objective type * Practical Exam and Viva Voce
VI	1	2	* Describe the use of Hospital Management System	* Hospital Management System: Types and uses	* Lecture Discussion * Demonstration	* Short answers * Objective type * Practical Exam and Viva Voce

MALWANCHAL UNIVERSITY

SOCIOLOGY

Placement: Second Year

Time: Theory 60 Hours

Course Description: This course is designed to introduce the concepts of sociology related to community and social institutions in India and its relationship with health, illness and nursing.

Unit	Time (Hrs)	Learning Objectives	Content	Teaching Learning Activities	Assessment Methods
I	1	* State the importance of sociology in Nursing	Introduction * Definition of Sociology * Nature and Scope of the discipline * Importance and application of Sociology in Nursing	* Lecture Discussion * Demonstration	* Essay type * Short answers
II	3	* Describe the inter-relationship of individual in society and community	Individual and Society * Society and Community * Nature of Society * Difference between Society and Community * Process of Socialization and individualization * Personal disorganization	* Lecture Discussion	* Essay type * Short answers
III	3	* Describe the influence of culture and disease	Culture * Nature of culture * Evolution of culture * Diversity and uniformity of culture * Culture and socialization * Transcultural society * Influence on health and disease	* Lecture Discussion * Panel Discussion	* Essay type * Short answers
IV	4	* Identify various social groups and their interactions	Social groups and processes * The meaning and classification of groups * Primary & Secondary group * In-group V/s. Out-group, class, tribe, caste * Economic, Political, Religious, groups, Mob, Crowd, Public and Audience Interaction & Social Processes * Co-operation, Competition, Conflict * Accommodation, Assimilation & Isolation	* Lecture Discussion	* Essay type * Short answers

V	6	* Explain the growth of population in India and its impact on health	Population * Society and population * Population distribution in India Demographic characteristics * Malthusian theory of Populations * Population explosion in India and its impact on health status * Family welfare programmes	* Lecture Discussion * Community identification	*Essay type *Short answers *Assessment of report on community identification
VI	5	* Describe the Institutions of family and marriage in India	Family and Marriage * Family – functions * Types – Joint, Nuclear, blended and extended family: characteristics * The modern family changes, problems – dowry etc, welfare services * Changes and legislations on family and marriage in India – Marriage acts * Marriage: forms and functions of marriage * Marriage and family problems in India * Family, Marriage and their influence on health and health practices	* Lecture Discussion * Family case study	*Essay type *Short answers *Assessment of family case study
VII	7	* Describe the class and caste system and their influence on health and health practices	Social stratification * Meaning and types of social stratification * The Indian caste system-origin and features * Features of caste in India today * Social class system and status * Social Mobility –Meaning & types * Race as a biological concept, criteria of racial classification * Salient features of Primary races-Racism * Influence of Class, Caste and Race on health and health practices	* Lecture Discussion * Community survey	*Essay type *Short answers *Assessment of report on community identification
VIII	6	* Describe the types of communities in India,	Types of Communities in India (Rural, Urban and Regional) * Features of village community and characteristics of Indian	* Lecture Discussion * Visits to rural and urban community * Community	*Essay type *Short answers *Assessment of report

		their practices and the impact on health	villages Panchayat system, social dynamics * Community Development project & planning * Changes in Indian Rural life * Availability of health facilities in rural and its impact on health and health practices * Urban–Community – features * The growth of cities: urbanization and its impact on health and health practices * Major Urban problems – Urban Slums * Region: Problems and impact on Health	survey	on community survey
IX	4	* Explain the process of Social Change	Social Change * Nature and process of social change * Factors influencing Social change: cultural change, Cultural lags. * Introduction to Theories of social change: :Linear, Cyclical, Marxian, Functional Role of nurse-Change agents	* Lecture Discussion	*Essay type *Short answers
X	2	* Describe the Social system and inter-relationship of social organizations	Social Organization and Social System * Social organization: elements, types * Democratic and authoritarian modes of participation * Voluntary association * Social system: Definition and Types of social system * Role and Status as structural elements of social system * Inter-relationship of institutions	* Lecture Discussion * Observation visits	*Essay type *Short answers *Assessment of visit report
XI	2	* Explain the nature and process of social control	Social control * Nature and process of social control * Political, Legal, Religious, Educational, Economic, Industrial and Technological system, Norms & Values – Folkways & Mores Customs, Laws and fashion Role of Nurse	* Lecture Discussion * Community survey	*Essay type *Short answers *Assessment of report on community survey
XII	15	* Describe	Social Problems	* Lecture	*Essay type

		<p>the role of the nurse in dealing with social problems in India</p>	<ul style="list-style-type: none"> * Social disorganization * Control & planning: poverty, housing, illiteracy, food supplies, prostitution, rights of women & children, vulnerable groups: Elderly, handicapped, minority groups and other marginalized groups, child labour, child abuse, delinquency and crime, substance abuse, HIV/Aids * Social welfare programmes in India <p>Role of Nurse</p>	<p>Discussion</p> <ul style="list-style-type: none"> * Institutional visits 	<ul style="list-style-type: none"> *Short answers *Assessment of report on community visit report

MALWANCHAL UNIVERSITY

PHARMACOLOGY

Placement: Second Year

Time: Theory – 45 hours

Course Description: This course is designed to enable students to acquire understanding of pharmaco-dynamics, pharmacokinetics, principles of therapeutics and nursing implications.

Unit	Time (Hrs)	Learning Objectives	Content	Teaching learning activity	Assessment Methods
I	3	*Describe pharmacokinetics, classification and the principles of drug administration	Introduction to pharmacology <ul style="list-style-type: none"> • Definitions • Sources • Terminology used • Types: Classification • Pharmacodynamics: Actions, therapeutic • Adverse, toxic • Pharmacokinetics : absorption, distribution, metabolism, interaction, excretion • Review: Routes and principles of administration of drugs • Indian pharmacopoeia : Legal issues • Rational use of drugs • Principles of therapeutics 	* Lecture Discussion	* Short answers * Objective type
II	6	*Explain Chemotherapy of specific infections and infestations and nurse's responsibilities	Chemotherapy <ul style="list-style-type: none"> • Pharmacology of commonly used; <ul style="list-style-type: none"> □ Penicillin □ Cephalosporin □ Amino glycosides □ Macrolide & Broad Spectrum Antibiotics □ Sulfonamides □ Quinolones □ Antiamoebic □ Antimalarials □ Anthelmintics □ Antiscabies agents □ Antiviral & anti-fungal agents □ Antitubercular drugs □ Anti leprosy drugs 	* Lecture Discussion * Drug study/ presentation	* Short answers * Objective type

			<ul style="list-style-type: none"> ❑ Anticancer drugs ❑ Immuno-suppressants <p>Composition, action, dosage, route, indications, contraindications, drug interactions, side effects, adverse effects, toxicity and role of nurse</p>		
III	2	*Describe Antiseptics Disinfectants and insecticides and nurse's responsibilities	Pharmacology of commonly used antiseptics, disinfectants and insecticides <ul style="list-style-type: none"> • Antiseptics; • Disinfectants • Insecticides 	* Lecture Discussion * Drug study/presentation	* Short answers * Objective type
IV	2	*Describe Drugs acting on Gastro Intestinal system and nurse's responsibilities	Drugs acting on G.I. system <ul style="list-style-type: none"> • Pharmacology of commonly used – ❑ Antiemetic, ❑ Emetics ❑ Purgatives ❑ Antacids ❑ Cholinergic ❑ Anticholinergics ❑ Fluid and electrolyte therapy ❑ Anti diarrhoeals ❑ Histamines <p>Composition, action, dosage, route, indications, contraindications, drug interactions, side effects, adverse effects, toxicity and role of nurse</p>	* Lecture Discussion * Drug study/presentation	* Short answers * Objective type
V	2	*Describe Drugs used on Respiratory systems and nurse's responsibilities	Drugs used on Respiratory Systems <ul style="list-style-type: none"> • Pharmacology of commonly used – ❑ Antiasthmatics ❑ Mucolytics ❑ Decongestants ❑ Expectorants ❑ Antitussives ❑ Bronchodilators ❑ Broncho constrictors ❑ Antihistamines <p>Composition, action, dosage, route, indications, contraindications, drug</p>	* Lecture Discussion * Drug study/presentation	* Short answers * Objective type

			interactions, side effects, adverse effects, toxicity and role of nurse		
VI	2	*Describe Drugs used on Urinary System and nurse's responsibilities	Drugs used on Urinary System <ul style="list-style-type: none"> • Pharmacology of commonly used – □ Diuretics and antidiuretics □ Urinary antiseptics □ Cholinergic and anticholinergics □ Acidifiers and alkalinizers Composition, action, dosage, route, indications, contraindications, drug interactions, side effects, adverse effects, toxicity and role of nurse	* Lecture Discussion * Drug study/presentation	* Short answers * Objective type
VII	4	*Describe Drugs used in Dead diction, emergency, deficiency of vitamins & minerals, poisoning, for immunization and immunosuppression and nurse's responsibilities	Miscellaneous <ul style="list-style-type: none"> • Drugs used in de-addiction • Drugs used in CPR and emergency • Vitamins and minerals • Immunosuppressants • Antidotes • Antivenom • Vaccines and sera 	* Lecture Discussion * Drug study/presentation	* Short answers * Objective type
VIII	1	*Describe Drugs used on skin and mucous membranes and nurse's responsibilities	Drugs used on skin and mucous membranes <ul style="list-style-type: none"> • Topical applications for skin, eye, ear, nose and buccal cavity Antipruritics Composition, action, dosage, route, indications, contraindications, drug interactions, side effects, adverse effects, toxicity and role of nurse	* Lecture Discussion * Drug study/presentation	* Short answers * Objective type
IX	8	*Describe Drugs	Drugs acting on Nervous system	* Lecture Discussion	* Short answers

		used on Nervous System and nurse's responsibilities	<ul style="list-style-type: none"> • Basic & applied Pharmacology of commonly used : • Analgesics and Anaesthetics <ul style="list-style-type: none"> □ Analgesics <ul style="list-style-type: none"> - Non steroidal anti - inflammatory (NSAID) drugs □ Antipyretics □ Hypnotics and Sedatives <ul style="list-style-type: none"> - Opioids - Non-Opioids - Tranquilizers - General & local anesthetics - Gases : oxygen, nitrous oxide, carbon-dioxide • Cholinergic and anti-cholinergic: <ul style="list-style-type: none"> □ Muscle relaxants □ Major tranquilizers □ Anti-psychotics □ Antidepressants □ Anticonvulsants □ Adrenergics □ Noradrenics □ Mood stabilizers □ Acetylcholine □ Stimulants <p>Composition, action, dosage, route, indications, contraindications, drug interactions, side effects, adverse effects, toxicity and role of nurse</p>	* Drug study/ presentation	* Objective type
X	5	*Describe Drugs used on Cardiovascular System and nurse's responsibilities	<p>Cardiovascular drugs</p> <ul style="list-style-type: none"> • Haematinics • Cardiotonics • Anti anginals • Anti-hypertensives& Vasodilators • Anti-arrhythmias • Plasma expanders • Coagulants & anticoagulants • Antiplatelets&thrombolytics • Hypolipidemics <p>Composition, action, dosage, route, indications, contraindications, drug interactions, side effects, adverse effects, toxicity and role of nurse</p>	* Lecture Discussion * Drug study/ presentation	* Short answers * Objective type

XI	4	*Describe drugs used for hormonal disorders and supplementation, contraception and medical termination of pregnancy and nurse's responsibilities	Drugs used for hormonal disorders & supplementation, contraception and medical termination of pregnancy <ul style="list-style-type: none"> • Insulins& Oral hypoglycemics • Thyroid supplements and suppressants • Steroids, Anabolics • Uterine stimulants and relaxants • Oral contraceptives • Other estrogen-progestrone preparations • Corticotrophine&Gonadotropines • Adrenaline • Prostaglandins • Calcitonins • Calcium salts • Calcium regulators Composition, action, dosage, route, indications, contraindications, drug interactions, side effects, adverse effects, toxicity and role of nurse	* Lecture Discussion * Drug study/presentation	* Short answers * Objective type
XII	6	*Demonstrate awareness of the common drugs used in alternative system of medicine	Introduction to Drugs used in alternative systems of medicine: <ul style="list-style-type: none"> • Ayurveda, Homeopathy, Unani and Siddha etc. 	* Lecture Discussion * Observational Visits	* Short answers * Objective type

PATHOLOGY AND GENETICS

Placement: Second Year

**Time: Theory – 45 hours
(Pathology 30 & Genetics 15 Hrs)**

Section A-Pathology

Time: Theory -30 hours

Course Description: This course is designed to enable students to acquire knowledge of pathology of various disease conditions and apply this knowledge in practice of nursing.

Unit	Time (Hrs)		Objectives	Content	Teaching learning activity	Assessment Method
	Th.	Pr.				
I	3		*Define the common terms used in pathology *Appreciate the deviations from normal to abnormal structure and functions of the body system	*Introduction <input type="checkbox"/> Importance of the study of pathology <input type="checkbox"/> Definition of terms <input type="checkbox"/> Methods and techniques <input type="checkbox"/> Cellular and Tissue changes <input type="checkbox"/> Infiltration and regeneration <input type="checkbox"/> Inflammations and Infections <input type="checkbox"/> Wound healing <input type="checkbox"/> Vascular changes *Cellular growth, Neoplasms <input type="checkbox"/> Normal and Cancer cell <input type="checkbox"/> Benign and Malignant growths <input type="checkbox"/> In situ carcinoma *Disturbances of fluid and electrolyte imbalance	*Lecture *Discussion *Explaining charts	*Short answer *Objective type
II	10	5	*Explain Pathological changes in disease conditions of various systems	Special pathology *Pathological changes in disease conditions of various systems: *Respiratory tract <input type="checkbox"/> Tuberculosis, Bronchitis, Pleural effusion and pneumonia <input type="checkbox"/> Lung abscess, emphysema,	*Discussion *Explain using charts, slides, specimen, X-rays and scans *Visit to Pathology lab, endoscopy unit and OT	*Short answer *Objective type

				bronchiectasis <input type="checkbox"/> Bronchial asthma, Chronic obstructive Pulmonary disease and tumours <input type="bullet"/> Cardio-vascular system <input type="checkbox"/> Pericardial effusion <input type="checkbox"/> Rheumatic heart disease <input type="checkbox"/> Infective endocarditis, atherosclerosis <input type="checkbox"/> Ischemia, infarction & aneurysm <input type="bullet"/> Gastro Intestinal Tract <input type="checkbox"/> Peptic ulcer, typhoid <input type="checkbox"/> Carcinoma of GI tract-buccal, Esophageal, <input type="checkbox"/> Gastric & intestinal <input type="bullet"/> Liver, Gall bladder & pancreas <input type="checkbox"/> Hepatitis, Chronic liver abscess, cirrhosis <input type="checkbox"/> Tumours of liver, gall bladder and pancreas, <input type="checkbox"/> Cholecystitis <input type="bullet"/> Kidneys & Urinary tract <input type="checkbox"/> Glomerulonephritis, pyelonephritis <input type="checkbox"/> Calculi, renal failure, renal carcinoma & cystitis <input type="bullet"/> Male genital systems <input type="checkbox"/> Cryptorchidism, testicular atrophy <input type="checkbox"/> Prostatic hyperplasia, carcinoma Penis & prostate <input type="bullet"/> Female genital system <input type="checkbox"/> Fibroids <input type="checkbox"/> Carcinoma cervix and Endometrium <input type="checkbox"/> Vesicular mole,		
--	--	--	--	--	--	--

				<ul style="list-style-type: none"> choriocarcinoma ❑ Ectopic gestation ❑ Ovarian cyst & tumours • Cancer Breast • Central Nervous system ❑ Hydrocephalus, Meningitis, encephalitis, ❑ Vascular disorders – thrombosis, embolism ❑ Stroke, paraplegia, quadriplegia ❑ Tumours, meningiomas-gliomas • Metastatic tumour • Skeletal system ❑ Bone healing, osteoporosis, osteomyelitis • Arthritis & tumours 		
III	4	3	<ul style="list-style-type: none"> • Describe various laboratory tests in assessment and monitoring of disease conditions 	<p>Clinical pathology</p> <ul style="list-style-type: none"> • Various blood and bone marrow tests in assessment and monitoring of disease conditions ❑ Hemoglobin ❑ RBC, White cell & platelet counts ❑ Bleeding time, clotting time and prothrombin time ❑ Blood grouping and cross matching ❑ Blood chemistry ❑ Blood culture ❑ Serological and immunological tests ❑ Other blood tests ❑ Examination of Bone marrow ❑ Methods of collection of blood specimen for various 	<ul style="list-style-type: none"> *Lecture Discussion *Demonstration *Visit to Clinical Pathology & Bio-Chemistry lab and Blood bank 	<ul style="list-style-type: none"> *Short answer *Objective type

				clinical pathology, biochemistry, microbiology tests, inference and normal values		
IV	2	1	*Describe the laboratory tests for examination of body cavity fluids, transudates and exudates	Examination of body cavity fluids, transudates and exudates <ul style="list-style-type: none"> • The laboratories tests used in CSF analysis • Examination of other body cavity fluids, transudates and exudates –sputum, wound discharge etc • Analysis of gastric and duodenal contents • Analysis of semen-sperm count, motility and morphology and their importance in infertility • Methods of collection of CSF and other cavity fluids specimen for various clinical pathology, biochemistry, microbiology tests, inference and normal values 	*Lecture Discussion *Demonstration	*Short answer *Objective type
V	1	1	*Describe laboratory tests for examination of Urine and faeces	Urine and faeces <ul style="list-style-type: none"> • Urine <ul style="list-style-type: none"> □ Physical characteristics □ Analysis □ Culture and sensitivity • Faeces <ul style="list-style-type: none"> □ Characteristics □ Stool examination: occult blood, ova, parasite and cyst, reducing substance etc. 	*Lecture Discussion *Demonstration	

				<ul style="list-style-type: none">• Methods of collection for various tests, inference and normal values		
--	--	--	--	--	--	--

MALWANCHAL UNIVERSITY

Section B-Genetics

Placement: Second Year

Time: Theory – 15 hours

Course Description: This course is designed to enable students to acquire understanding of Genetics, its role in causation and management of defects and diseases

Unit	Time (Hrs)	Objectives	Content	Teaching Learning Activities	Assessment Method
I	3	*Explain nature, principles and perspectives of heredity	<p>Introduction :</p> <ul style="list-style-type: none"> *Practical application of genetics in Nursing *Impact of genetic condition on families *Review of cellular division mitosis and meiosis. *Characteristics and structure of genes *Chromosomes – sex determination *Chromosomal aberrations Patterns of inheritance *Mendelian theory of inheritance *Multiple allots and blood groups *Sex linked inheritance *Mechanism of inheritance *Errors in transmission (Mutation) 	<ul style="list-style-type: none"> *Lecture Discussion *Explain using charts, slides 	<ul style="list-style-type: none"> *Short answer *Objective type
II	3	*Explain Maternal, prenatal and genetic influences on development of defects and diseases	<p>Maternal, prenatal and genetic influences on development of defects and diseases</p> <ul style="list-style-type: none"> • Conditions affecting the mother : genetic and infections • Consanguinity atopy • Prenatal nutrition and food allergies • Maternal Age • Maternal drug therapy • Prenatal testing and diagnosis • Effect of Radiation, drugs and chemicals • Infertility • Spontaneous abortion • Neural Tube Defects and the role of folic acid in lowering the risks • Down syndrome (Trisomy 21) 	<ul style="list-style-type: none"> *Lecture Discussion *Explain using charts, slides 	<ul style="list-style-type: none"> *Short answer *Objective type

III	2	*Explain the screening methods for genetic defects and diseases in neonates and children	Genetic testing in the neonates and children <ul style="list-style-type: none"> • Screening for <ul style="list-style-type: none"> □ Congenital abnormalities □ Developmental delay □ Dysmorphism 	*Lecture Discussion *Explain using charts, slides	*Short answer *Objective type
IV	2	*Identify genetic disorders in adolescents and adults	Genetic conditions of adolescents and adults <ul style="list-style-type: none"> • Cancer genetics – Familial Cancer • Inborn errors of metabolism • Blood group alleles and hematological disorder • Genetic haemochromatosis • Huntington's disease • Mental illness 	*Lecture Discussion *Explain using charts, slides	*Short answer *Objective type
V	5	*Describe the role of nurse in genetic services and counseling	Services related to Genetics <ul style="list-style-type: none"> • Genetic testing • Human genome project • Gene therapy • The Eugenics movement • Genetic Counseling Legal and Ethical issues Role of nurse	*Lecture Discussion *Explain using charts, slides	*Short answer *Objective type

MEDICAL SURGICAL NURSONG-I (ADULT INCLUDING GERIATRICS)

Placement: Second Year

Time: Theory – 211 hours

Practical – 720 hours

Course Description: The purpose of this course is to acquire knowledge and develop proficiency in caring for patients with medical and surgical disorders in varieties of health care settings and at home.

Unit	Time (Hrs)	Learning Objectives	Content	Teaching Learning Activities	Assessment Method
I	15	*Appreciate the trends in medical and surgical nursing *Describe the role of nurse in caring for adult patient in hospital and community *Describe the concepts of medical surgical asepsis	Introduction : *Introduction to medical surgical nursing – Evolution and trends of medical and surgical nursing <ul style="list-style-type: none"> • Review of Concepts of Health and illness Disease - concepts, causations, classification diseases (ICD - 10 or later version), Acute illness Chronic illness & Terminal illness, stages of illness • Review of concepts of comprehensive nursing care in medical surgical conditions based on nursing process • Role of nurse, patient and family in care of adult patient • Role and responsibilities of a nurse in medical surgical settings : <ul style="list-style-type: none"> <input type="checkbox"/> Outpatient department <input type="checkbox"/> In-patient unit <input type="checkbox"/> Intensive care unit <input type="checkbox"/> Home and Community settings • Introduction to Medical Surgical asepsis <ul style="list-style-type: none"> <input type="checkbox"/> Inflammation & Infection <input type="checkbox"/> Immunity Wound healing *Care of Surgical Patient <ul style="list-style-type: none"> <input type="checkbox"/> Pre-operative <input type="checkbox"/> Intra operative 	*Lecture Discussion *Demonstration *Practice session *Supervised clinical practice	*Short answer *Objective type *Assessment skills with check list

			<input type="checkbox"/> Post operative		
II	15	<p>*Describe the common signs, symptoms, problems and their</p> <p>*Specific nursing interventions</p>	<p>Common signs and symptoms and management</p> <ul style="list-style-type: none"> • Fluid and electrolyte imbalance • Vomiting • Dyspnea and cough, respiratory obstruction • Fever • Shock • Unconsciousness, Syncope • Pain • Incontinence • Edema • Age related problems – geriatric 	<p>*Lecture</p> <p>Discussion</p> <p>*Seminar</p> <p>*Case discussion</p>	<p>*Short answer</p> <p>*Objective type</p>

			<p>exercises</p> <ul style="list-style-type: none"> • Crutch maneuvering technique • Activities of daily living • Ambulation • Teach and counsel patients & families 		
Operation Theatre	6	<p>*Identify instruments used in common operations</p> <p>*Participate in Infection control practices in the Operation Theatre</p> <p>*Set-up the table/ trolleys for common operative procedures</p> <p>*Assist in giving anesthesia</p> <p>*Assist in the operative procedures</p> <p>*Provide peri operative nursing care</p>	<p>*Scrubbing, gowning gloving</p> <p>*Identify instruments suturing materials for common operations</p> <p>*Disinfection, Carbonization, fumigation</p> <p>*Preparation of instrument sets for common operations</p> <ul style="list-style-type: none"> • Sterilization of sharps and other instruments • Prepare the OT table depending upon the operation • Positioning and monitoring of patients • Endotracheal intubation • Assisting in minor and major operations • Handling specimens • Disposal of waste as per the guidelines 	<p>*Assist as a circulatory nurse in</p> <p>*Major cases- 10</p> <p>*Minor cases – 5</p> <p>*Assist as a scrub nurse in</p> <p>*Major cases- 10</p> <p>*Minor cases – 5</p> <p>*Maintain drug book</p>	<p>*Assess performance with rating scale</p> <p>*Completion of activity record</p>

INTERNSHIP

TIME: 260 HOURS (9 weeks)

Unit	Duration (in week)	Objectives	Skills	Assignments	Assessment Methods
ICU, CCU, CARDIAC OT	2	*To gain proficiency in ICU nursing *Develop advance skill in special procedures used in critical care unit *Identify potential problems and provide accordingly *Skill in setting and handling ventilator *Administer injection in infusion pump *Record accurately findings and medications *Develop IPR with family members <ul style="list-style-type: none"> • Acquaint with OT technique 	*Assist in arterial puncture for blood gas analysis *Perform ECG and interpret accordingly. *Conduct & analysis pulse oximetry *Care with artificial airway *Assist in end tracheal intubation *Setting up ventilator *Giving care in ventilator *Drug sheet *Observation of special procedure in OT.	*Arterial puncture –5 *Taking out ECG stripe –5 *Tracheal suction-5 *For all assigned patients *Oxygen administration by CPAP mask and use AMBU bag. *Assessment for all assigned patients *Nursing care in ventilator *Drug sheet	*Record book *Checking with supervisor

Neuro ICU, ITU, OT	2	*Develop skill in neurological assessment *Give care to the pt with head injury and spinal injury *Care with chest surgery and cranial surgery	*Assess neurological status *Implement care to head injury spinal injury patients *Drug sheet *Pre and postoperative care with neuro surgery patients	*Assessment for all assigned patients *Nursing care plan-2 *Drug sheet	*Record book *Observation checklist
Burns & plastic Reconstructive surgery	2	*Assess the severity of burns *Administer rehydration therapy *Observe reconstructive surgery	*Nursing care		
OT Lapro –scopic Orthopaedic Eye ENT	3	*Identify instruments *Assist in OT set up *Supervise sterilization *Assist in OT table lay out *Observe immediately after operation *Supervise infection control		*Assist - 5 cases	*Record book

COMMUNITY HEALTH NURSING – I

Placement: Second Year

Time: Theory -93 hours

Practical–135 hours

Course Description: This course is designed for students to appreciate the principles of promotion and maintenance of health

Unit	Time (Hrs)	Learning Objectives	Content	Teaching Learning Activities	Assessment methods
I	2	*Describe concept and dimensions of health	Introduction *Community health nursing *Definition, concept and dimensions of health *Promotion of health *Maintenance of health	*Lecture discussion	*Short answer
II	20	*Describe determinants of health	<p>1. Determinants of health</p> <ul style="list-style-type: none"> • Eugenics • Environment : <ul style="list-style-type: none"> □ Physical : Air, light, Ventilation, Water, Housing, Sanitation; disposal of waste, disposal of dead bodies, Forestation, Noise, Climate, Communication: infrastructure facilities and Linkages □ Acts regulating the environment: National Pollution control board □ Bacterial & viral: Agents, host carriers and immunity □ Arthropods and Rodents • Food hygiene: Production, Preservation, Purchase, Preparation, Consumption • Acts regulating food hygiene- Prevention of food adulteration act, drugs and cosmetic act • Socio-cultural □ Customs, taboos 	*Lecture discussion *Explain using Charts, graphs, Models, films, slides *Visits to water supply, sewage disposal, milk plants, slaughter house etc	*Essay type *Short answer *Objective type

			<ul style="list-style-type: none"> ❑ Marriage system ❑ Family structure ❑ Status of special groups; Females, Children, Elderly, challenged groups and Sick persons • Life Style • Hygiene • Physical activity ❑ Recreation and sleep ❑ Sexual life ❑ Spiritual life philosophy ❑ Self reliance ❑ Dietary pattern ❑ Education ❑ Occupation • Financial Management ❑ Income ❑ Budget ❑ Purchasing power ❑ Security ❑ Climate change and their impact on Health ❑ Air pollution and their impact on Health ❑ Heat wave and their impact on Health

MALWANCHAL UNIVERSITY

COMMUNITY HEALTH NURSING - I

Placement: Second Year

Time: Practical – 135 hours

Areas	Duration (in week)	Objectives	Skills	Assignments	Assessment methods
Community health nursing	2 wks urban and 2 wks rural	*Build and Maintain rapport *Identify demographic characteristics, health determinants & community health resources *Diagnose health needs of individual and families *Provide primary care in health centre *Counsel & educate individual, family & community	<ul style="list-style-type: none"> • Use techniques of inter-personal relationship • Identification of health determinants of community • History taking • Physical examination • Collect specimens- sputum, malaria smear • Perform simple lab tests at centre - blood for Hemoglobin and sugar, urine for albumin and sugar • Administer vaccines and medications to adults • Counsel and teach individual, family and community <ul style="list-style-type: none"> <input type="checkbox"/> Nutrition <input type="checkbox"/> Hygiene <input type="checkbox"/> Self health monitoring <input type="checkbox"/> Seeking health services <input type="checkbox"/> Healthy life style <input type="checkbox"/> Family welfare methods <input type="checkbox"/> Health promotion 	*To work with 2 assigned families each in urban & rural *Family study – 1 *Observation report of community – 1 *Health talks 2 (1 in urban & in rural)	*Assess clinical performance with rating scale *Assess each skill with checklist *Evaluation of family study, observation report and health talk *Completion of activity record

COMMUNICATION & EDUCATIONAL TECHNOLOGY

Placement :Second Year

Time : Theory – 90 hours

Course Description : This course is designed to help the students acquire an understanding of the principles and methods of communication and teaching. It helps to develop skill in communicating effectively, maintaining effective interpersonal relations, teaching individuals and group in clinical, community health and educational settings.

Unit	Time		Learning Objectives	Content and Teaching Learning Activities	Teaching Learning Activities	Assessment Method
	Th	Pr				
I	5		*Describe the communication process *Identify techniques of effective communication	Review of Communication Process <ul style="list-style-type: none"> • Process; elements and channel • Facilitators • Barriers and methods of overcoming • Techniques 	*Lecture Discussion *Role plays *Exercises with audio/video tapes *Respond to critical incidents	*Respond to critical incidence *Short Answer *Objective Type
II	5		*Establish effective interpersonal relations with patients families & co-workers	Interpersonal relations <ul style="list-style-type: none"> • Purpose & types • Phases • Barriers & methods of overcoming • Johari Window 	*Lecture Discussion *Role plays *Exercises with audio/video tapes Process recording	*Short Answer *Objective Type
III	5		*Develop effective human relations in context of nursing	Human relations <ul style="list-style-type: none"> • Understanding self • Social behavior, motivation, social attitudes • Individual and groups • Groups & individual • Human relations in context of nursing • Group dynamics • Team work 	*Lecture Discussion *Sociometry *Group games *Psychometric exercises followed by discussion *Respond to critical incidents	*Short Answer *Objective Type *Respond to test based on critical incidents
IV	10	5	*Develop basic skill of counseling and guidance	Guidance & counseling <ul style="list-style-type: none"> • Definition • Purpose, scope & need • Basic principles • Organization of 	*Lecture Discussion * Role play on counseling in different situations followed by	*Short Answer *Objective Type *Assess performance in role play situation

				<p>counseling services</p> <ul style="list-style-type: none"> • Types of counseling approaches • Role and preparation of counselor • Issues for counseling in nursing: students and practitioners • Counseling process – steps & techniques, tools of counselor • Managing disciplinary problems • Management of crisis & referral 	<p>discussion</p> <p>*Assess performance in role play situations</p>	
V	5		<p>*Describe the philosophy & principles of education</p> <p>*Explain the teaching learning process</p>	<p>Principles of education & teaching learning process</p> <ul style="list-style-type: none"> • Education: meaning, philosophy, aims, functions & Principles • Nature and characteristics of learning, • Principles and maxims of teaching, <p>Formulating objectives: general and specific</p> <ul style="list-style-type: none"> • Lesson planning • Classroom management 	<p>*Lecture</p> <p>Discussion</p> <p>*Prepare lesson plan</p> <p>*Micro teaching</p> <p>*Exercise on writing objectives</p> <p>*Assess lesson plans & teaching sessions</p>	<p>*Short Answer</p> <p>*Objective Type</p> <p>*Assess lesson plan and teaching session</p>
VI	10	10	<p>*Demonstrate teaching skill using various teaching methods in clinical, classroom & community settings</p>	<p>Methods of teaching</p> <ul style="list-style-type: none"> • Lecture, demonstration, group discussion, seminar symposium, panel discussion, role play, project, field trip, workshop, exhibition, programmed instruction, computer assisted learning, micro teaching problem based 	<p>*Lecture</p> <p>Discussion</p> <p>*Conduct 5 teaching sessions using different methods & media</p> <p>Assess teaching sessions</p>	<p>*Short Answer</p> <p>*Objective Type</p> <p>*Assess teaching session</p>

				<p>learning, Self instructional module and simulation etc.</p> <ul style="list-style-type: none"> • Clinical teaching methods : case method, nursing round & reports, bedside clinic, conference (individual & group) process recording 		
VII	10	8	<p>*Prepare and use different types of educational media effectively</p>	<p>Educational media</p> <ul style="list-style-type: none"> • Purposes & types of A.V. Aids, principles and sources etc. • Graphic aids: chalk board, chart, graph, poster, flash cards, flannel graph, bulletin, cartoon • Three dimensional aids : objects, specimens, models, puppets • Printed aids: pamphlets & leaflets • Projected aids : slides, overhead projector, films, TV, VCR/VCD, camera, microscope, LCD • Audio aids : tape recorder public address system • Computer 	<p>*Lecture Discussion *Demonstration *Prepare different teaching aids- projected & non projected Assess the teaching aids prepared</p>	<p>*Short Answer Type *Objective Type *Assess teaching session</p>
VIII	5	7	<p>*Prepare different types of questions for assessment of knowledge, skills and attitudes</p>	<p>Assessment</p> <ul style="list-style-type: none"> • Purpose & scope of evaluation & assessment • Criteria for selection of assessment techniques and methods • Assessment of knowledge : essay type questions, Short answer questions (SAQ), Multiple choice questions (MCQ) 	<p>*Lecture Discussion *Demonstration *Prepare different teaching aids- projected & non projected *Assess the teaching aids prepared</p>	<p>*Short Answer Type *Objective Type *Assess The strategies used in practice teaching sessions and exercise sessions.</p>

				<ul style="list-style-type: none"> • Assessment of skills : observation checklist, practical exam, Viva, Objective structured clinical examination (OSCE) • Assessment of Attitudes: Attitude scales 		
IX	5		<ul style="list-style-type: none"> • Teach individuals, groups and communities about health with their active participation 	<p>Information, Education & communication for health (IEC)</p> <ul style="list-style-type: none"> • Health behavior & health education • Planning for health education • Health education with individuals, groups & communities • Communicating health messages • Methods & media for communicating health messages • Using mass media • Assess the strategies used in practice teaching sessions and exercise sessions 	<ul style="list-style-type: none"> • Lecture Discussion • Plan & conduct health education sessions for individuals, group & communities 	<ul style="list-style-type: none"> • Short Answer • Objective Type • Assess the planning & conduct of the educational session

MEDICAL SURGICAL NURSING

(ADULT INCLUDING GERIATRICS) – II

Placement: Third Year

Time: Theory -120 hours
Practical-270 hours

Course Description: The purpose of this course is to acquire knowledge and develop proficiency in caring for patients with medical and surgical disorders in varieties of health care settings and at home.

Unit	Time (Hrs)	Learning Objectives	Content	Teaching Learning activities	Assessment methods
I	15	*Describe the etiology, Pathophysiology, clinical manifestations, diagnostic measures and management of patients with disorders of Ear Nose and Throat	<p>Nursing management of patient with disorders of Ear Nose and Throat</p> <ul style="list-style-type: none"> • Review of anatomy and physiology of the Ear Nose and Throat • Nursing assessment- History and Physical assessment • Etiology, Pathophysiology, clinical manifestations, diagnosis, treatment modalities and medical & Surgical nursing management of Ear Nose & Throat disorders: <ul style="list-style-type: none"> ○ External ear: deformities otalgia, foreign bodies, and tumours ○ Middle Ear – Impacted wax, Tympanic membrane perforation, otitis media, otosclerosis, mastoiditis, tumours ○ Inner ear – Meniere’s Disease, labyrinthitis, ototoxicity, tumours ○ Upper airway infections – Common cold, sinusitis, <u>ethinitis</u>, rhinitis, pharyngitis, tonsillitis and adenoiditis, peritonsillar abscess, laryngitis • Upper respiratory airway – epistaxis, • Nasal obstruction, 	*Lecture Discussion *Explain using Charts, graphs *Models, films, slides *Demonstration *Practice session *Case discussions/ Seminar *Health education *Supervised clinical practice *Drug book/ presentation Assessment of skills with check list	*Essay type *Shorts answers *Objective type *Assessment of skills with checklist *Assessment of patient management problem

			<p>laryngeal obstruction, cancer of the larynx</p> <ul style="list-style-type: none"> • Cancer of the oral cavity • Speech defects and speech therapy • Deafness – • Prevention, control and rehabilitation • Hearing Aids, implanted hearing devices <p>Special Therapies Nursing procedures Drugs used in treatment of disorders of Ear Nose and Throat Role of nurse Communicating with hearing impaired and muteness.</p>		
II	15	*Describe the etiology, patho physiology, clinical manifestations, diagnostic measures and management of patients with disorders of eye.	<p>Nursing management of patient with disorder of eye</p> <ul style="list-style-type: none"> • Review of anatomy and physiology of the eye – • Nursing Assessment - History and Physical assessment • Etiology, Pathophysiology, clinical manifestations, diagnosis, treatment modalities and medical & Surgical nursing management of eye disorders: <ul style="list-style-type: none"> ○ Refractive errors ○ Eyelids- infection, tumours& deformities ○ Conjunctiva - inflammation and infection, bleeding ○ Cornea- inflammation and infection ○ Lens-Cataracts ○ Glaucoma ○ Disorder of the <u>uveal</u>tract, ○ Ocular tumours ○ Disorders of 	<p>*Lecture Discussion *Explain using Charts, graphs *Models, films, slides *Demonstration *Practice session *Case discussions/ Seminar *Health education *Supervised clinical practice *Drug book/ presentation</p> <ul style="list-style-type: none"> • Visit to eye bank • Participation in eye-camps 	<p>*Essay type *Shorts answers *Objective type *Assessment of skills with checklist *Assessment of patient management problem</p>

			<p>posterior chamber & retina : retinal and vitreous problems</p> <ul style="list-style-type: none"> ○ Retinal detachment ○ Ocular emergencies and their prevention <ul style="list-style-type: none"> ● Blindness ● National blindness control program <ul style="list-style-type: none"> ○ Eye Banking ○ Eye prostheses and Rehabilitation <p>Role of nurse - Communication with visually impaired patient, Eye camps Special Therapies Nursing procedures Drugs used in treatment of disorders of eye</p>		
III	16	*Describe the etiology, pathophysiology, clinical manifestations, diagnostic measures & nursing management of patients with neurological disorders	<p>Nursing management of patient with neurological disorders</p> <ul style="list-style-type: none"> ● Review of anatomy and physiology of the neurological system ● Nursing Assessment - History and Physical and neurological ● Etiology, Pathophysiology, clinical manifestations, diagnosis, treatment modalities and medical & Surgical nursing management of neurological disorders ● Congenital malformations ● Headache ● Head Injuries ● Spinal Injuries: <ul style="list-style-type: none"> ○ Paraplegia ○ Hemiplegia ○ Quadraplegia ● Spinal cord compression-herniation of intervertebral disc ● Tumors of the brain & spinal cord 	<p>*Lecture Discussion *Explain using Charts, graphs Models, films, slides *Demonstration *Practice session *Case discussions/ Seminar *Health education *Supervised clinical practice *Drug book/ presentation *Visit to rehabilitation centre *Assessment of skills with check list *Assessment of patient management problem</p>	<p>*Essay type *Shorts answers *Objective type *Assessment of skills with checklist *Assessment of patient management problem</p>

			<ul style="list-style-type: none"> • Intra cranial & cerebral aneurysms • Infections : <ul style="list-style-type: none"> ○ Meningitis, Encephalitis, Brain abscess, neurocysticercosis • Movement disorders <ul style="list-style-type: none"> ○ Chorea ○ Seizures ○ Epilepsies • Cerebro Vascular Accidents (CVA) • Cranial, Spinal Neuropathies - Bell's palsy, trigeminal neuralgia • Peripheral Neuropathies; Guillain-Barré Syndrome • Myasthenia gravis • Multiple sclerosis • Degenerative diseases <ul style="list-style-type: none"> ○ Delirium ○ Dementia ○ Alzheimer's disease ○ Parkinson's disease • Management of unconscious patients & patients with stroke • Role of the nurse in communicating with patient having neurological deficit • Rehabilitation of patients with neurological deficit <p>Role of nurse in long stay facility (institutions) and at home</p> <p>Special Therapies</p> <p>Nursing procedures</p> <p>Drugs used in treatment of neurological disorders</p>

MENTAL HEALTH NURSING

Placement: Third Year

Time: Theory - 91 hours
Practical - 270 hours
Internship- 95 hours (2 weeks)

Course Description: This course is designed for developing an understanding of the modern approach to mental health, identification, prevention and nursing management of common mental health problems with special emphasis on therapeutic interventions for individuals, family and community.

Unit	Time (Hrs)	Learning Objective	Content	Teaching Learning Activities	Assessment Method
I	5	*Describes the historical development & current trends in mental health nursing *Describe the epidemiology of mental health problems *Describe the National Mental Health Act, programmers and mental health policy *Discusses the scope of mental health nursing *Describe the	Introduction *Perspectives of Mental Health and Mental Health nursing : evolution of mental health services, treatments and nursing practices, *Prevalence and incidence of mental health problems and disorders *Mental Health Act *National Mental health policy vies a vies National health policy *National Mental health programme *Mental Health team *Nature and scope of mental health nursing *Role and functions of mental health nurse in various settings and factors affecting the level of nursing practice *Concepts of normal and abnormal behavior	*Lecture discussion *Assessment of field visits reports	*objective type *short answer *assessment of the field visit report

		concept of normal & abnormal behavior			
II	5	<ul style="list-style-type: none"> *Defines the various terms used in mental health nursing *Explains the classification of mental disorders *Explain psychodynamics of maladaptive behavior *Discuss the etiological factors, psychopathology of mental disorders *Explain the Principles & standards of mental health nursing *Describe the conceptual models of mental health nursing 	<p>Principles and Concepts of Mental Health Nursing</p> <ul style="list-style-type: none"> *Definition: mental health nursing and terminology used *Classification of mental disorders : ICD *Review of personality development, defense mechanisms *Maladaptive behavior of individuals and groups: stress, crisis and disaster(s) *Etiology: bio-psychosocial factors *Psychopathology of mental disorders: review of structure & function of brain, limbic system and abnormal neurotransmission *Principles of Mental health Nursing *Conceptual models and the role of nurse: *Existential Model *Psycho-analytical models *Behavioral model *Interpersonal model 	<ul style="list-style-type: none"> *Lecture discussion *Explain using charts *Review of personality Development 	<ul style="list-style-type: none"> *Essay type *objective type *short answer
III	8	<ul style="list-style-type: none"> *Describe nature, purpose & process of 	<p>Assessment of mental health status</p> <ul style="list-style-type: none"> *History taking *Mental status 	<ul style="list-style-type: none"> *Lecture discussion *Demonstration *Practice session *Clinical practice 	<ul style="list-style-type: none"> *objective type *short answer * Assessment

		assessment of mental health status	examination *Mini mental status examination *Neurological examination : review *Investigations : Related Blood chemistry, EEG, CT & MRI *Psychological tests Role and responsibilities of nurse		of skills with checklist
IV	6	*Identify therapeutic communication techniques *Describe therapeutic relationship *Describe therapeutic impasse and its intervention	Therapeutic communication and nurse-patient relationship *Therapeutic communication: types, techniques, characteristics *Types of relationship, *Ethics and responsibilities *Elements of nurse patient contract *Review of technique of IPR-Johari Window *Goals, phases, tasks, therapeutic techniques *Therapeutic impasse and its intervention	*Lecture discussion *Demonstration *Role play *Process recording	*objective type *short answer
V	14	*Explain treatment modalities & therapies used in mental disorders and role of the nurse	Treatment modalities and therapies used in mental disorders *Psycho Pharmacology *Psychological therapies: Therapeutic community, psycho therapy-individual: psycho-analytical, cognitive & supportive, Family, Group, behavioral. Play, Psycho-drama, Music, Dance, Recreational & Light therapy, Relaxation therapies : Yoga, Meditation, bio	*Lecture discussion *Demonstration *Group work *Practice session *Clinical practice	*Essay type *objective type *short answer

			feedback *Alternative systems of medicine *Occupational therapy *Physical Therapy: electro convulsive therapy *Geriatric considerations Role of nurse in above therapies		
VI	5	*Describe the etiology, psychopathology, clinical manifestations, diagnostic criteria & management of patients with Schizophrenia, and other psychotic disorders	Nursing management of patient with Schizophrenia, and other psychotic disorders *Classification: ICD *Etiology, psychopathology, types, clinical manifestations, diagnosis *Nursing Assessment - History, Physical & mental assessment *Treatment modalities and nursing management of patients with Schizophrenia & other psychotic disorders *Geriatric considerations *Follow up and home care and rehabilitation	*Lecture discussion *Case discussion *Case presentation *Clinical practice *Assessment of patient management problems	*Essay type *short answer *assessment of patient management problem
VII	5	*Describe the etiology psychopathology, clinical manifestations, diagnostic criteria and management of patients with mood	Nursing management of patient with mood disorders *Mood disorders: Bipolar affective disorder, Mania depression & dysthymia etc *Etiology, psychopathology, clinical manifestations, diagnosis, *Nursing Assessment – History, Physical and mental assessment	*Lecture discussion *Case discussion *Case presentation *Clinical practice	*Essay type *short answer *assessment of patient management problem

		disorders	*Treatment modalities and nursing management of patients with mood disorders *Geriatric considerations *Follow-up and home care and rehabilitation		
VIII	8	*Describe the etiology, psychopathology, clinical manifestations, diagnostic criteria and management of patients with neurotic, stress related and somatization disorders	Nursing management of patient with neurotic, stress related and somatization disorders *Anxiety disorder, Phobias, Dissociation and Conversion disorder, Obsessive compulsive disorder, somatoform disorders, Post traumatic stress disorder *Etiology, psychopathology, clinical manifestations, diagnosis *Nursing Assessment- History, Physical & mental assessment *Treatment modalities and nursing management of patients with neurotic, stress related and somatization disorders *Geriatric considerations *Follow-up and home care and rehabilitation	*Lecture discussion *Case discussion *Case presentation *Clinical practice *Assessment of patient management problems	*Essay type *short answer *assessment of patient management problem
IX	5	*Describe the etiology psychopathology, clinical manifestations, diagnostic criteria	Nursing management of patient with substance use disorders *Commonly used psychotropic substance: Classification, forms, routes, action, intoxication &	*Lecture discussion *Case discussion *Case presentation *Clinical practice	*Essay type *short answer *assessment of patient management problem

		and management of patients with substance use disorders	<p>withdrawal</p> <ul style="list-style-type: none"> *Etiology of dependence: tolerance, psychological and physical dependence, withdrawal syndrome, diagnosis, *Nursing Assessment - History, Physical, mental assessment and drug assay *Treatment (detoxification, antabuse and narcotic antagonist therapy and harm reduction) & nursing management of patients with substance use disorders *Geriatric considerations *Follow-up and home care and rehabilitation 		
X	4	*Describe the etiology psychopathology, clinical manifestations, diagnostic criteria and management of patients with personality, Sexual & Eating disorders	<p>Nursing management of patient with Personality, Sexual & Eating disorders</p> <ul style="list-style-type: none"> *Classification of disorders *Etiology, psychopathology, characteristics, diagnosis, *Nursing assessment- History, Physical and mental assessment *Treatment modalities and nursing management of patients with Personality, Sexual & Eating disorders *Geriatric considerations *Follow-up and home care and rehabilitation 	<ul style="list-style-type: none"> *Lecture discussion *Case discussion *Case presentation *Clinical practice 	<ul style="list-style-type: none"> *Essay type *short answer *assessment of patient management problem
XI	6	*Describe the etiology	<p>Nursing management of child-hood and adolescent disorders</p>	<ul style="list-style-type: none"> *Lecture discussion *Case discussion *Case presentation 	<ul style="list-style-type: none"> *Essay type *short answer *assessment of

		psycho-pathology, clinical manifestations, diagnostic criteria and management of childhood and adolescent disorders including mental deficiency	including mental deficiency *Classification *Etiology, psycho-pathology, characteristics, diagnosis, Nursing assessment-History, Physical, mental and IQ assessment *Treatment modalities and nursing management of childhood disorders including mental deficiency *Follow-up and home care and rehabilitation	*Clinical practice	patient management problem
XII	5	*Describe the etiology, psycho-pathology, clinical manifestations, diagnostic criteria and management of organic brain disorders	Nursing management of organic brain disorders *Classification: ICD? *Etiology, psycho-pathology, clinical features, diagnosis, and Differential diagnosis (parkinsonism and Alzheimer's) Nursing assessment-History, Physical, mental and neurological assessment *Treatment modalities and nursing management of organic brain disorders *Geriatric considerations *Follow-up and home care and rehabilitation	*Lecture discussion *Case discussion *Case presentation *Clinical practice	*Essay type *short answer *assessment of patient management problem
XIII	6	*Identify psychiatric emergencies and carry out crisis intervention	Psychiatric emergencies and crisis intervention *Types of psychiatric emergencies and their management *Stress adaptation	*Lecture discussion *Demonstration *Practice session *Clinical practice	*Essay type *short answer *assessment of patient management problem

		n	<p>Model: stress and stressor, coping, resources and mechanism</p> <p>*Grief: theories of grieving process, principles, techniques of counseling</p> <p>*Types of crisis</p> <p>*Crisis Intervention: Principles, Techniques and Process</p> <p>*Geriatric considerations</p> <p>Role and responsibilities of nurse</p>		
XIV	4	<p>*Explain legal aspects applied in mental health settings and role of the nurse</p>	<p>Legal issued in Mental Health Nursing</p> <p>*The Mental Health Act 1987: Act, sections, Articles & their implications etc.</p> <p>*Indian Lunacy Act 1912</p> <p>*Rights of mentally ill clients</p> <p>*Forensic psychiatry</p> <p>*Acts related to narcotic and psychotropic substances and illegal drug trafficking</p> <p>*Admission and discharge procedures</p> <p>Role and responsibilities of nurse</p>	<p>*Lecture discussion</p> <p>*Case discussion</p>	<p>*Essay type</p> <p>*short answer</p> <p>*assessment of patient management problem</p>

		various mental health problems *Assist in various therapies *Counsel & educate patients, families & significant others	(ECT) *Participate in all therapies *Prepare patients for Activities of Daily living (ADL) *Conduct admission and discharge counseling *Counsel and teach patients and families	*Process recording 2 *Maintain drug book	process recording *Completion of activity record
Community Psychiatry	1	*To identify patients with various mental disorders *To motivate patients for early treatment & follow up *To assist in follow up clinic *Counsel and educate patient, family and community	*Conduct case work *Identify individuals with mental health problems *Assists in mental health camps and clinics *Counsel and Teach family members, patients and community	*Case work – 1 *Observation report on field visits	*Assess performance with rating scale *Evaluation of case work and observation report *Completion of activity record

Internship

Area	Duration	Objective	Skills	Assessment Methods
Psychiatry ward	2 weeks	Provide comprehensive care to patients with mental health problems	*Integrated Practice	*Assess clinical performance with rating scale

MIDWIFERY AND OBSTETRICAL NURSING

Placement: Third Year

Time: Theory - 46hours

Practical - 180 hours

Course Description : This course is designed for students to appreciate the concepts and principles of midwifery and obstetrical nursing. It helps them to acquire knowledge and skills in rendering nursing care to normal and high risk pregnant women during antenatal, natal and post natal periods in hospitals and community settings. It also helps to develop skills in managing normal & high risk neonates & participate in family welfare programme.

Unit	Time (Hrs)	Learning Objective	Content	Teaching Learning Activities	Assessment Methods
I	3	*Recognize the trends & issues in midwifery and obstetrical nursing	Introduction to midwifery and obstetrical Nursing *Introduction to concepts of midwifery and obstetrical Nursing *Trends in midwifery and obstetrical nursing <ul style="list-style-type: none"> ○ Historical perspectives and current trends ○ Legal and ethical aspects ○ Pre-conception care and preparing for parenthood ○ Role of nurse in midwifery and obstetrical care ○ National policy and legislation in relation to maternal health & welfare ○ Maternal, morbidity, mortality and fertility rates ○ Perinatal, morbidity and mortality rates 	*Lecture discussion *Explain using Charts and graphs	* short answer *objective type
II	8	*Describe the anatomy & physiology of female reproductive system	Review of anatomy & physiology of female reproductive system and fetal development *Female pelvis- general description of the bones joints, ligaments, planes of the pelvis diameters of the true pelvis, important landmarks, variations in pelvis shape *Female organs of reproduction - external genital, internal genital organs and their anatomical relations, musculature – blood supply, nerves, lymphatic's, pelvic cellular tissue, pelvic peritoneum *Physiology of menstrual cycle	*Lecture discussion *Review with Charts and models	* short answer *objective type

			<p>*Human sexuality *Fetal development *Conception *Review of fertilization, implantation (embedding of the ovum), development of the embryo & placenta at term functions, abnormalities, the fetal sac, amniotic fluid, the umbilical cord, *Fetal circulation, fetal skull, bones, sutures and measurements *Review of Genetics</p>		
III	8	*Describe the diagnosis & management of women during antenatal period	<p>Assessment and management of pregnancy (ante-natal)</p> <ul style="list-style-type: none"> • Normal pregnancy • Physiological changes during pregnancy <ul style="list-style-type: none"> ○ Reproductive system ○ Cardio vascular system ○ Respiratory system ○ Urinary system ○ Gastro intestinal system ○ Metabolic changes ○ Skeletal changes ○ Skin changes ○ Endocrine system ○ Psychological changes ○ Discomforts of pregnancy • Diagnosis of pregnancy <ul style="list-style-type: none"> ○ Signs ○ Differential diagnosis ○ Confirmatory tests • Ante-natal care <ul style="list-style-type: none"> ○ Objectives ○ Assessment <p>*History and physical examination *Antenatal Examination *Signs of previous child-birth *Relationship of fetus to uterus and pelvis : Lie, Attitude, Presentation, Position *Per vaginal examination *Screening & assessment for high risk; *Risk approach *History and Physical Examination *Modalities of diagnosis; Invasive & Non-Invasive, ultrasonic's, cardiotomo-graphy , NST, CST *Antenatal preparation</p>	<p>*Lecture Discussion *Demonstration *Case discussion/ presentation *Health talk *Practice session *Counseling session *Supervised Clinical practice</p>	<p>* short answer type *objective type *Assessment of skills with checklist *Assessment of patient management problems</p>

			<ul style="list-style-type: none"> *Antenatal counseling *Antenatal exercises *Diet *Substance use *Education for child-birth *Husband and families *Preparation for safe-confinement *Prevention from radiation *Psycho-social and cultural aspects of pregnancy *Adjustment to pregnancy *Unwed mother *Single parent *Teenage pregnancy *Sexual violence *Adoption 		
IV	15	<ul style="list-style-type: none"> *Describe the physiology and stages of labour *Describe the management of women during intra-natal period 	<p>Assessment and management of intra-natal period</p> <ul style="list-style-type: none"> *Physiology of labour, mechanism of labour *Management of labour <ul style="list-style-type: none"> ○ First stage *Signs and symptoms of onset of labour; normal & abnormal * Duration *Preparation of: <ul style="list-style-type: none"> *Labour room *Woman *Assessment & observation of women in labour ; partogram – maternal and foetal monitoring *Active management of labour, Induction of labour *Pain relief and comfort in labour <ul style="list-style-type: none"> ● Second stage <ul style="list-style-type: none"> ○ Signs and symptoms; normal & abnormal ○ Duration ○ Conduct of delivery ; principles and techniques ○ Episiotomy (only if required) ○ Receiving the new born *Neonatal resuscitation ; initial steps and subsequent resuscitation *Care of umbilical cord *Immediate assessment including screening for congenital anomalies *Identification *Bonding 	<ul style="list-style-type: none"> *Lecture Discussion *Demonstration *Case discussion/presentation *Simulated practice *Supervised Clinical practice 	<ul style="list-style-type: none"> * short answer *objective type *Assessment of skills with checklist *Assessment of patient management problems

MALWANCHAL UNIVERSITY

*** Essential Requirements for registration as midwife**

* Antenatal examination	30
* Conducting normal deliveries in hospital/home/health centre	20
* Vaginal examination	5
* Episiotomy and suturing	5
* Neonatal resuscitation	5
* Assist with Caesarean Section	2
* Witness/Assist abnormal deliveries	5
* Postnatal cases nursed in hospital/home/health center	20
* Insertion of IUD	5

Note : All casebooks must be certified by teacher on completion of essential requirements

Internship Obstetrical Nursing

Internship Duration - 5 weeks

Area	Duration (in weeks)	Objective	Skills	Assignment	Assessment Methods
Labour ward	2	*Provide comprehensive care to mothers and neonates	Integrated Practice	*Completion of other essential requirements *Case book recordings	*Assess clinical performance with rating scale *Completion of case book recordings
Neonatal intensive care unit/ NICU	1				
Antenatal	2				

NURSING RESEARCH AND STATISTICS

Placement: Third year

Time: Theory – 45 Hours
Internship Practical-45Hours

Course Description: The course is designed to enable students to develop and understanding of basic concepts of research, research process and statistics. It is further, structured to conduct/participate in need based research studies in various settings and utilize the research findings to provide quality nursing care. The hours for Practical will be utilized for conducting Individual / group research project.

Unit	Time (Hrs)	Learning Objectives	Contents	Teaching Learning Activity	Assessment Methods
I	4	<ul style="list-style-type: none"> * Describe the concept of research, terms, need and areas of research in Nursing * Explain the steps of research process 	Research and Research Process <ul style="list-style-type: none"> * Introduction and need for Nursing research * Definition of Research & nursing research * Steps of scientific method * Characteristics of good research * Steps of Research process-overview 	<ul style="list-style-type: none"> * Lecture discussion * Narrate steps of research process followed from examples of published studies 	<ul style="list-style-type: none"> *Short answer *Objective type
II	3	<ul style="list-style-type: none"> * Identify and state the research problem and objectives 	Research problem / question <ul style="list-style-type: none"> * Identification of problem area * Problem statement * Criteria of a good research problem * Writing objective 	<ul style="list-style-type: none"> * Lecture discussion * Exercise on writing statement of problem and objectives 	<ul style="list-style-type: none"> *Short answer *Objective type
III	3	<ul style="list-style-type: none"> * Review the related literature 	Review of Literature <ul style="list-style-type: none"> * Location * Sources * On line search; CINHALL, COCHRANE etc * Purposes * Method of review 	<ul style="list-style-type: none"> * Lecture discussion * Exercise on reviewing one research report/article for a selected research problem * Prepare annotated bibliography 	<ul style="list-style-type: none"> *Short answer *Objective type
IV	4	<ul style="list-style-type: none"> * Describe the research approaches and designs 	Research approaches and designs <ul style="list-style-type: none"> * Historical, survey and experimental * Qualitative and quantitative designs 	<ul style="list-style-type: none"> *Lecture discussion * Explain types of research approaches 	<ul style="list-style-type: none"> *Short answer *Objective type

				used from examples of published and unpublished research studies with rationale	
V	8	<p>* Explain the sampling process</p> <p>* Describe the methods of data collection</p>	<p>Sampling and Data Collection</p> <p>* Definition of population, sample, sampling criteria, factors influencing sampling process, types of sampling techniques</p> <p>* Data – why, what, from, whom, when, where to collect</p> <p>* Data collection methods and instruments:</p> <ul style="list-style-type: none"> ○ Methods of data collection ○ Questioning, interviewing ○ Observations, record analysis and measurements ○ Types of instruments ○ Validity and reliability of the instrument ○ Pilot study ○ Data collection procedure 	<p>* Lecture discussion</p> <p>* Reading assignment on examples of data collection tools</p> <p>* Preparation of sample data collection tools</p> <p>* Conduct group research project</p>	<p>*Short answer</p> <p>*Objective type</p>
VI	4	<p>* Analyze, interpret and summarize the research data</p>	<p>Analysis of data:</p> <p>* Compilation, Tabulation, classification, summarization, presentation, interpretation of data</p>	<p>* Lecture discussion</p> <p>* Preparation of sample tables</p>	<p>*Short answer</p> <p>*Objective type</p>
VII	15	<p>* Explain the use of statistics, scales of measurement and graphical presentation of data</p> <p>* Describe the measures of central tendency and variability and methods of correlation.</p>	<p>Introduction to statistics</p> <p>* Definition, use of statistics, scales of measurement</p> <p>* Frequency distribution and graphical presentation of India</p> <p>* Mean, Median, Mode, Standard deviation</p> <p>* Normal probability and tests of significance.</p> <p>* Co-efficient of correlation</p> <p>* Statistical packages and its application</p>	<p>* Lecture discussion</p> <p>* Practice on graphical presentation</p> <p>* Practice on computation of measures of central tendency, variability and correlation</p>	<p>*Short answer</p> <p>*Objective type</p>

VIII	4	* Communicate and utilize the research findings	Communication and Utilization of Research * Communication of Research findings <ul style="list-style-type: none"> ○ Verbal report ○ Writing research report ○ Writing scientific article/paper - Critical review of published research - Utilization of research finding 	* Lecture discussion * Read / presentations of a sample published / unpublished research report * Writing group research project	*Short answer *Objective type *Oral Presentation *Assessment of group research project

Placement: Internship

Time: 4 Weeks

Certificate Course of in Community Health Integrated

Area	Duration	Objectives	Skills	Assessment
Urban	4 Weeks	* Provide comprehensive care to individual, family and community	* Integrated Practice and group project – 1 in each rural and urban	* Assess clinical performance with rating scale * Evaluation of project

Note: During the Rural Posting they should stay in Health centers under the supervision of teachers.

INTEGRATION OF CERTIFICATE COURSE IN COMMUNITY HEALTH NURSING

TOPICS ADDED

S.No	Topics	Duration (M)		Description	Resource materials
		Th.	Pr.		
1.	Roles & Responsibility of MLHP/CHO	30	-	Theory: Roles expected from CHO during their posting at sub-centres in the community	Lesson Plan; PPT
2.	New National Health Programs	240	-	Theory: Includes updates in National Health Programmes in RMNCAH+N, Adolescent health, MHS, PMSMA, Dakshata, SUMAN – Surakshit Matritva Aashwasa, WIFS & National Iron Plus Initiative guideline, NTEP, NPCBVI, NPHCE, NPPCD, NTCP, NOHP, NPPC, NPPMBI. Technical updates- Vit- A Supplementation, Iron Supplementation, Albendazole and Calcium supplementation to pregnant women, Antenatal Corticosteroids	Lesson Plan; PPT
3.	Ayushman Bharat, CPHC- Concept. Key elements	60	120	Theory- Upgradation of SC-HWC; Concept of CPHC- CPHC Guideline; PMJAY Practical: Visit to SC-HWC during the internship; Understand functionalities of SCHWC using checklist	Lesson Plan; PPT Checklist
4.	Standard treatment protocols at SC	60	120	Theory: Care by CHO as per service delivery framework of CPHC guidelines Practical: Diagnostics at SC-HWC	Lesson Plan; PPT Checklist
5.	RBSK	40	240	Theory: The recent updates and programmatic components Practical: Activity 38, 3 and 41 of module 3 of CCH	Lesson Plan; PPT Checklist
6.	Social Mobilization skills	30	120	Theory: Understand the concept and benefits Social Mobilization; role of Health Worker in Social Mobilization Practical: Activity 8 of module 3 of CCH	Lesson Plan; PPT Checklist
7.	Drug dispensing	60	120	Theory: Drug prescription; Drug dispensing; Administration of medications (Oral and Injections); Handling and disposal of injection related wastes Practical: Activity 14 of module 3 of CCH	Lesson Plan; PPT Checklist

8.	Programme management including Monitoring & Supervision	30	-	Theory: SC-HWC as a program and its impact on community health. CHO's role as manager. Concepts of Leadership, Supervision, Monitoring and De-stressing	Lesson Plan; PPT
9.	Investigation of Outbreak	60	120	Theory: Steps of Investigation of an Outbreak with example of Outbreak of Acute Gastro-Enteritis Practical: Activity 5 of module 3 of CC	Lesson Plan PPT Checklist
10.	BCC and soft skills	30	-	Theory: Basics of Communication, health belief model, behaviour change, and problem solving	Lesson Plan; PPT
11.	IDSP	30	-	Theory: Integrated Disease surveillance Programme under Communicable disease	Lesson Plan; PPT
12.	MCTS	30	90	Theory: ANMOL/RCH portal and its implications in improving MCH Practical: Hands-on experience on ANMOL tablet during visit to SC	Lesson Plan; PPT Checklist
13.	Chikungunya	40	-	Theory: Disease characteristics, care and management	Lesson Plan; PPT
14.	Organization of Labor room	30	120	Theory: Standardization of Labour Room at Delivery Points Practical: skill demonstration/orientation in skill lab or during Labor room visits	Lesson Plan; PPT Checklist
15.	Safe childbirth checklist	30	120	Theory: concept and use of SCC Practical: skill demonstration/orientation in during Labor room visits	Lesson Plan; PPT Checklist
16.	Postpartum visit by Health worker	60	120	Theory: Importance and operational aspects of home visits during post-partum period Practical: Post-partum visits as per SBA, HBNC/HBYC guidelines during internship	Lesson Plan; PPT Checklist
17.	Family Planning 2020	30	-	Theory: India's vision and activities to achieve FP 2020 goals	Lesson Plan; PPT
18.	National Family Planning programme	60	240	Theory: Newer family planning methods, unmet need, Basket of choice Practical: organizing family planning clinics, Counseling of couples using GATHER Approach and Interval IUCD & PPIUCD insertion	Lesson Plan; PPT Checklist
19.	Food Borne diseases	45	-	Theory: Food poisoning and food intoxication, Public health response to food borne diseases, Food safety, food storage, and handling. Eat right Campaign	Lesson Plan; PPT Checklist

SUMMARY OF TOPICS REVIEWED

S.No	Topics	Duration (M)		Description	Resource materials
		Th.	Pr.		
1.	Health Planning and Healthcare delivery system in India (IPHS)	60	60	Theory: Concept of planning and management for health, Health Care delivery system in India as per IPHC norms Practical: Facility assessment checklist for PHC and SC as per IPHS norms	Lesson Plan; PPT & Job Aid Checklist
2.	HMIS	60	60	Theory: Concept, data elements and flow, recording and reporting formats Practical: Orientation on HMIS application during CHC/PHC and SC visit	Lesson Plan; PPT & Job Aid, Checklist
3.	Electronic Medical Record	60	-	Theory: Concept, benefits, disadvantages, roles of health care providers	Lesson Plan; PPT
4.	Micro birth Planning	60	-	Theory: Concept, steps involved and role of ANM/ASHA and	Lesson Plan; PPT/Job Aid
5.	Adolescent Counselling	60	60	Theory: Need and rationale for adolescent counselling, forums for counselling, suggested topics Practical: Activity 36 of module 3 of CCH and visit to AFHC	Lesson Plan; PPT/ Job Aid Checklist
6.	Sources of Vital Statistics	30	60	Theory: different sources and their importance in India, implications on health parameters Practical: community mapping, calculating vital statistics of the community	Lesson Plan; PPT/Job Aid Checklist
7.	Financial management, Accounts and computing at Sub Center	30	60	Theory: budgeting and financial provisions at Sub centre. Untied funds and its usage Practical: study of records and register during the field visits to SC	Lesson Plan; PPT/ Job Aid
8.	Mental health act and de-addicting programme	30	60	Theory: Mental Health Act, suicide prevention, de-addiction strategies and care/management at community level Practical: Wellness and health promotion activities at SC HWC	Lesson Plan; PPT/Job Aid Checklist

9.	Time trend in disease occurrence in Epidemiology	30	-	Theory: concept and definitions, examples in local context	PPT
10.	IYCF and counselling	60	60	Theory: Appropriate infant and young child feeding practices, exclusive breast feeding and complementary feeding Practical: Activity 40 of module 3 of CCH (Infant and Young Child Feeding)	Lesson Plan; PPT/Job Aid Checklist
11.	National Nutrition Mission	30	60	Theory: purpose, strategy, components of Poshan Abhiyaan Practical- Activity 41 of module 3 of CCH (Promoting and Monitoring Growth and Development and Plotting Chart)	Lesson Plan; PPT/Job Aid Checklist
12.	Use of Equipment		120	Practical: Activity 43 of module 3 of CCH (use of equipment) during visit to District hospital/CHC	Lesson Plan; PPT/Job Aid Checklist
13.	Throat problem and febrile seizure in children	30	60	Theory: Causes, symptoms, care and management of throat problem and febrile seizure. Practical: Activity 17 of module 3 of CCH-Assessment of patients with Ear, Nose and Throat (ENT) problems	Lesson Plan; PPT/Job Aid Checklist
14.	Transportation of baby and common accidents/ mishaps in labor room	60	-	Theory: Guiding principles for transporting sick babies and common mishaps in labor room and their management	Lesson Plan; PPT/Job Aid Checklist
