

MALWANACHAL UNIVERSITY, INDORE

Facilities for E-Content Development

Purpose

To empower faculty in the creation of high-quality e-content that enhances the integration of e - learning within teaching methodologies at Malwanchal University.

Scope

To provide essential resources and support for the effective development and dissemination of e-learning materials.

Objectives

1. Establish a professional facility for recording high-quality video lectures by faculty and students, stored in a library repository for public access.
2. Develop content for a MOOC platform catering to medical, dental, nursing, pharmacy, and physiotherapy disciplines.
3. Ensure that developed content can be uploaded to designated educational platforms.
4. Facilitate the upload of select content to public platforms such as YouTube.
5. Provide stakeholders with the capability to live stream lectures, speeches, webinars, and other events in a professional manner.

Electronic Facilities for E-Content Development

S. No.	Specifics
1	Cordless Microphones
2	Studio Lighting Equipment
3	Video and Audio Recording Facilities
4	High-Quality Web Cameras
5	High-Configuration Computers with Advanced Audio Systems
6	Video Editing Software

MALWANCHAL UNIVERSITY, INDORE

Manpower Requirements

1. Videographer
2. Graphic Designer
3. Software and Hardware Personnel as required
4. Additional Support Personnel as needed

Procedure for Development of E-Content

1. Faculty will design their lessons and outline the expected outcomes.
2. Faculty will approach the Chief Librarian, who will coordinate the development of the planned content at the designated media center within the Learning Resource Center.
3. The support team will provide guidance on utilizing available software for video and audio editing.
4. The institution will offer both paid and free online platforms for conducting lectures, webinars, and meetings, including Zoom, Cisco Webex, Google Meet, and Microsoft Teams.
5. The final output, i.e., the developed e-content, will be submitted to the Chief Librarian for quality verification before being uploaded to the institution's e-repository and facilitated for distribution on platforms such as YouTube and Facebook.

Notes

1. The facilities for developing e-content are portable and can be utilized by the constituent units of Malwanchal University as needed.
2. Upon request, the Department of Systems and Operations will provide content development facilities in various locations, including classrooms, seminar halls, demonstration rooms, operation theaters, clinical wards, museums, labs, and auditoriums.
