**HOLI CELEBRATION**

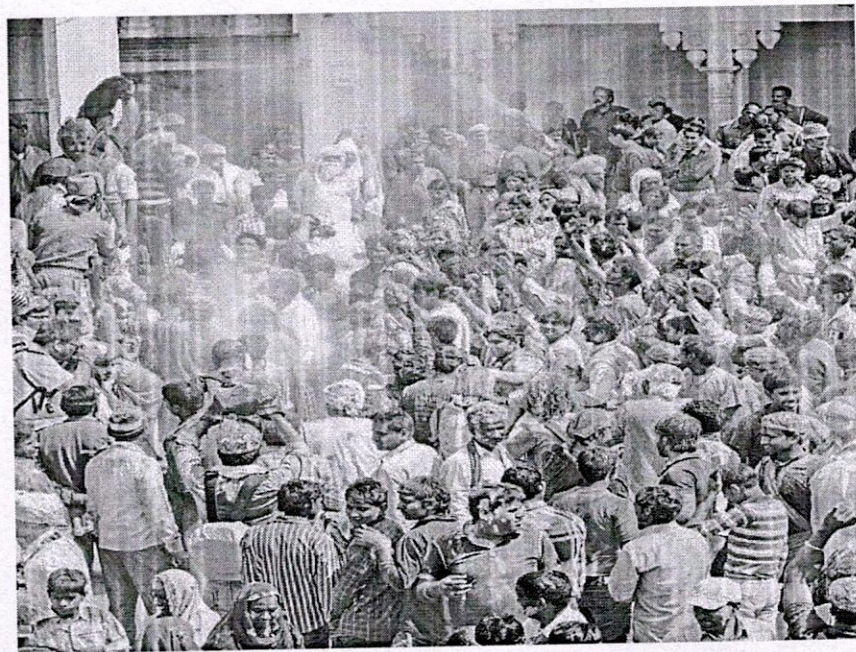

Holi, the vibrant festival of colors celebrated by millions around the world, will take place on Monday, March 25, 2024. This festival, which marks the arrival of spring and the triumph of good over evil, usually involves joyous gatherings, the throwing of colored powders, singing, dancing, and festive foods. The celebration begins with Holika Dahan or Choti Holi the night before, where people light bonfires to symbolize the victory of good over evil.

In 2024, Holika Dahan will be on Sunday, March 24, followed by the main Holi festivities on the next day. Holi is celebrated differently in various regions of India and by Indian communities worldwide, with each area adding its own traditions and customs to the celebration.
